## ASSIGNMENT

WHEREAS, Axesstel Technologies, Inc., a California corporation, Assignor, owns the entire right, title and interest in and to United States Patent No. 7,136,673 (the "'673 patent"), titled Telephony Terminal (the "invention"), and based upon United States Patent Application No. 11/549,882 (the "application"); and

WHEREAS, Axesstel, Inc., a Nevada corporation, Assignee, desires to acquire by formal, recordable assignment the entire right, title and interest in and to the '673 patent, the application, and any corresponding Letters Patent that might be granted throughout the world;

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor hereby sells, assigns and transfers to Assignee, the entire right, title and interest in and to the '673 patent, the application, and any corresponding Letters Patent that might be granted throughout the world.

Further, Assignor agrees that, upon request and without further compensation, but at no expense to Assignor, it and its legal representatives and assigns will perform all lawful acts, including the execution of papers and the giving of testimony, that might be necessary or desirable for obtaining, sustaining, reissuing or enforcing Letters Patent in the United States and throughout the world for the invention, and for perfecting, recording or maintaining the title of Assignee, its successors and assigns, to the invention, the application, and any Letters Patent granted for the invention in the United States and throughout the world.

Assignor represents and warrants that it has not granted and will not grant to others any rights inconsistent with the rights granted by this Assignment.

Assignor authorizes and requests the Commissioner of Patents and Trademarks of the United States and of all foreign countries to issue any Letters Patent granted for the invention to Assignee, its successors and assigns, as the assignee of the entire interest in the invention.
