CONFIRMATORY ASSIGNMENT

WHEREAS, in 2007 UCB Pharma S.A. ("ASSIGNEE"), having principal offices at 60, Allée de la Recherche, B-1070 Brussels, Belgium, engaged OXO, Smart Design, and Alex Lee, Daniel Formosa, Steven Vordenberg, Joern Vicari, Eric Freitag, and Boris Kontorvich (the "INVENTORS") to perform engineering services that included designing drug delivery devices suitable for commercial use and sale with ASSIGNEE'S medicaments, it having been a condition of such engagement that all work product and intellectual property rights arising from the engagement is and will be owned by ASSIGNEE, including all rights to seek patent protection for such work product throughout the world;

WHEREAS, pursuant to the engagement, the INVENTORS have invented certain improvements described in the applications for patents set forth on Schedule A (the "Patent Applications"); and

WHEREAS, ASSIGNEE, OXO and Smart Design and the INVENTORS desire to memorialize ASSIGNEE'S ownership of such improvements and Patent Applications, and all other intellectual property rights therein;

NOW, THEREFORE, for good and valuable consideration, including the terms of the prior agreements between the parties, the receipt of which is hereby acknowledged, the INVENTORS, OXO and Smart Design (collectively, the "Hired Parties") have sold, assigned and transferred and by these presents do hereby confirm to sell, assign and transfer unto said ASSIGNEE, its successors, assigns and legal representatives, the entire right, title and interest of the Hired Parties in and throughout the United States of America, its territories and all foreign countries, in and to all inventions as described in the Patent Applications, together with our entire right, title and interest in and to said Patent Applications and any patents as may issue thereon, and any reissue, continuation, continuation-in-part, divisional and foreign counterparts thereof and including the right to claim priority under any applicable statute, treaty or convention based on said Patent Applications; said inventions, applications and patents to be held and enjoyed by said ASSIGNEE for its own use and behalf and for its successors, assigns and legal representatives, to the full end of the term for which any said patents may be granted. The Assigning Parties also hereby confirm that they have conveyed and hereby confirm to convey all rights arising under or pursuant to any and all international agreements, treaties or laws relating to the protection of industrial property by filing any such applications for patents, all choses in action pertaining to the Patent Applications or patents including the right to sue for and collect damages and other recoveries for past infringement thereof, all rights to initiate proceedings before government and administrative bodies, and all files, records and other materials arising from the prosecution, exploitation, or defense of rights and registrations pertaining to the Patent Applications or patents. The Assigning Parties hereby acknowledge that this Confirmatory Assignment, being of their entire right, title and interest in and to said inventions, confirms that ASSIGNEE has all rights necessary to apply for and obtain from competent authorities in all countries of the world any and all Patent Applications or patents by attorneys and agents of ASSIGNEE's selection and the right to procure the grant of all such Patent Applications or patents to ASSIGNEE for its own name as assignee of the entire right, title and interest therein; and

The Assigning Parties hereby agree for themselves and their executors and administrators to execute upon request any other lawful documents and likewise to perform any other lawful acts which may be deemed necessary to secure fully the aforesaid inventions and intellectual property rights to said ASSIGNEE, its successors, assigns and legal representatives, including the execution of applications for patents in foreign countries, and the execution of substitution, reissue, divisional or continuation applications and preliminary or other statements and the giving of testimony in any interference or other proceeding in which said inventions or any Patent Applications or patents directed thereto may be involved; and

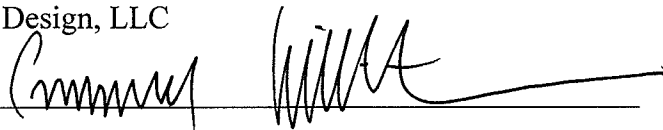

The Assigning Parties do hereby authorize and request the commissioner of patents of all applicable countries listed in **Schedule A** to issue such patents as shall be granted upon Patent Applications or based thereon to said ASSIGNEE, its successors, assigns, and legal representatives.

This Confirmatory Assignment may be executed in any number of counterparts and by facsimile signature or other electronic transmission, each of which shall be enforceable against the party actually executing the counterpart, and all of which together shall constitute one instrument.
