## ASSIGNMENT

This Assignment made by CHARLES WEI of Fremont, California and GARY A. HAYTER of Oakland, California; Assignors, to ABBOTT DIABETES CARE INC., a Delaware corporation, Assignee, having a place of business at 1360 South Loop Road, Alameda, California 94502.

WHEREAS, Assignors have invented a new and useful system and method entitled REAL TIME MANAGEMENT OF DATA RELATING TO PHYSIOLOGICAL CONTROL OF GLUCOSE LEVELS for which a nonprovisional patent application for United States Letters Patent is being filed herewith and for which a provisional application for United States Letters Patent was filed on July 23, 2009, having Application No. 61/228,101 (herein collectively referred to as the "applications");

WHEREAS, Assignors believe themselves to be the original, first, and joint inventors of the invention disclosed and claimed in said applications for Letters Patent; and

WHEREAS, Assignee desires to acquire by formal, recordable assignment the entire right, title, and interest in and to said invention, said applications, and any Letters Patent that may be granted for said invention in the United States and throughout the world;

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignors hereby sell, assign, and transfer to Assignee, the entire right, title, and interest in and to said invention, said applications, and any Letters Patent that may be granted for said invention in the United States and throughout the world, including the right to file foreign applications directly in the name of Assignee and to claim for any such foreign applications any priority rights to which such applications are entitled under international conventions, treaties or otherwise.

Further, Assignors agree that, upon request and without further compensation, but at no expense to Assignors, they and their legal representative(s) and assigns will do all lawful acts, including the execution of papers and the giving of testimony, that may be necessary or desirable for obtaining, sustaining, reissuing, maintaining, reexamining, or enforcing Letters Patent in the United States and throughout the world for said invention, and for perfecting, recording, or maintaining the title of Assignee, its successors and assigns, to said invention, said applications, and any Letters Patent granted for said invention in the United States and throughout the world.

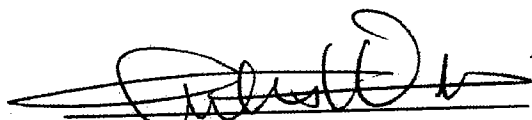

Assignors represent and warrant that they have not granted and will not grant to others any rights inconsistent with the rights granted herein.

Assignors authorize and request the Commissioner of Patents and Trademarks of the United States and of all foreign countries to issue any Letters Patent granted for said invention, whether on said applications or on any subsequently filed division, continuation, continuation-in-part, or reissue application, to Assignee, its successors and assigns, as the assignee of the entire interest in said invention.

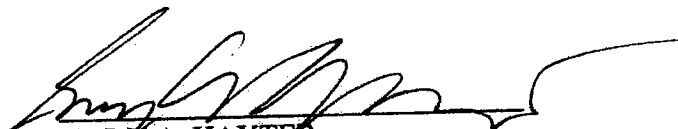

IN WITNESS WHEREOF, Assignors have executed this Assignment on the date written hereinbelow.
