ASSIGNMENT

WHEREAS I, Mark W. Yorns, have made certain inventions or discoveries (or both) set forth in the following application for Letters Patent:

U.S. Patent Application Serial Number 29/366,634, which was filed on July 28, 2010, entitled "Handpiece for Compressed Air Gun", identified by Foley Hoag LLP Docket No. GCK-011.01; and

WHEREAS Guardair Corporation, whose address is 54 Second Avenue, Chicopee, MA 01020, and which, together with its successors and assigns, is hereinafter called "Assignee," is desirous of acquiring the title, rights, benefits, and privileges hereinafter recited;

NOW, THEREFORE, for valuable consideration furnished by Assignee to me, the receipt and sufficiency of which I hereby acknowledge, I hereby, without reservation:

1. Assign, transfer, and convey to Assignee my entire right, title, and interest in and to said application for Letters Patent, any and all other applications for Letters Patent setting forth said inventions and discoveries based in whole or in part upon said application, including all divisional, renewal, substitute, continuation, continuation-in-part, reissue, Convention applications, national stage, regional stage, reexaminations, and extensions of Letters Patent, any Letters Patent issuing from any such applications, and every priority right that is or may be predicated upon or arise from said application and said Letters Patent;
2. Authorize Assignee to file patent applications in any or all countries on any or all of said inventions and discoveries in our names or in the name of Assignee or otherwise as Assignee may deem advisable, under the International Convention or otherwise;
3. Authorize and request the Director of the United States Patent and Trademark Office and equivalent authorities in all other patent offices worldwide to issue or transfer all said Letters Patent to Assignee, as assignee of the entire right, title, and interest therein or otherwise as Assignee may direct;
4. Warrant that I have not knowingly conveyed to others any right in said applications or Letters Patent or any license to said applications or Letters Patent, and that I have good right to assign the same to Assignee without encumbrance;
5. Bind my heirs, legal representatives and assigns, as well as myself, to do, upon Assignee's request and at Assignee's expense, but without additional consideration to me or them, all acts reasonably serving to assure that the said patent applications, and the said Letters Patent shall be held and enjoyed by Assignee as fully and entirely as the same could have been held and enjoyed by me, my heirs, legal representatives, and assigns if this assignment had not been made; and particularly to execute and deliver to Assignee all lawful application documents including petitions, specifications, declarations, and oaths, and all assignments, disclaimers, and lawful affidavits in form and substance as may be requested by Assignee; to communicate to Assignee all facts known to me relating to said inventions and discoveries or the history thereof; and to furnish Assignee with any and all documents, photographs, models, samples, and other

physical exhibits in our control or in the control of my heirs, legal representatives or assigns which may be useful for establishing the facts of my conceptions, disclosures, and reduction to practice of said inventions and discoveries.

IN TESTIMONY OF WHICH I have executed this Assignment as an instrument under seal on the date indicated next to my name.
