Title : MULTI-AXIS PHOTOGRAPHIC TRIPOD HEADS

DECLARATION OF HAO LIU

HAI LIU, being duly sworn, deposes and says that:

1. I am a co-inventor in the invention of the present application.
2. I am the President of Benro Corporation ("Benro" or "the Company"), a corporation organized and existing under the laws of China. I have been employed by Benro since approximately 1995.
3. The information in this declaration is based upon my first-hand knowledge as well as a review of the Company's files.
4. Benro has a long standing business relationship with Mamiya America Corporation.
5. I understand that Mamiya America Corporation is a corporation organized and existing under the laws of the State of New York with a place of business at 8 Westchester Plaza, Elmsford, New York 10523.

6. In about February 2010, I intended to assign my rights in the present application to Mamiya America Corporation.

7. Mamiya America Corporation does business under the name MAC Group.

8. I have recently become aware that the legal name of Mamiya America Corporation is and has been Mamiya America Corporation and not MAC Group.

9. On February 8, 2010, I signed a document in which I intended to assign my rights to Mamiya America Corporation, believing that Mamiya America Corporation's legal name was MAC Group. I signed this document without any deceptive intent.

10. I understand that the document I signed on February 8, 2010 was recorded at the United States Patent and Trademark Office on February 25, 2010 and can be found at reel number 023993 and frame number 0226.

11. I recently learned that pursuant to Section 130 of the General Business Law of the State of New York, Mamiya America Corporation filed a Certificate of Assumed Name with the State of New York in about September 2004. That Certificate of Assumed Name indicates that MAC Group is an assumed name for Mamiya America Corporation.

12. I now understand that MAC Group is a name used by Mamiya America Corporation as an identifier and is not the name of any legal entity associated with Mamiya America Corporation.

13. When I signed the document on February 8, 2010 indicating MAC Group as the Assignee, I did so without deceptive intent and continue to have no deceptive intent.

14. I now understand that by previously signing a document purporting to be an assignment of my rights in the present application to MAC Group, I did not actually assign my rights and continued to retain my rights.

15. I am now assigning my rights in the present application to Mamiya America Corporation. This appropriate assignment is presently being submitted to the United States Patent and Trademark Office's Assignment Division for recordation.

16. I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
