PATENT ASSIGNMENT

This Patent Assignment is between Crydom Technologies, a Cayman Islands exempted company ("Assignor"), and Crouzet, Inc., a Delaware corporation ("Assignee"), and is delivered pursuant to that certain Cayman Islands Assignment and Assumption Agreement (the "Agreement") dated February 15, 2006 between Assignor and Assignee and in conjunction with that certain Asset Purchase Agreement (the "APA") dated October 27, 2005 and as amended to date among Assignee, Schneider Electric Holdings, Inc., a Delaware corporation, Silicon Power Corporation, a California corporation, Crydom Corporation, a California corporation, and the principal shareholders of SPC.

Assignor has delivered this Patent Assignment signed by the Assignor to enable the Assignee to file it with any appropriate governmental agency to indicate ownership to the patents and patent applications listed in Schedule I attached hereto (the "Patents") and related rights described below and for the other purposes set forth in this Patent Assignment. This Patent Assignment supplements and is in addition to all other rights of the Assignee under the Agreement and the APA and any other instruments of transfer delivered in connection with the Agreement and the APA.

Assignor is the sole and exclusive owner of the Patents.

1. In consideration of the Agreement and the APA and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, and by signing and delivering this Patent Assignment, the Assignor contributes, assigns, transfers, conveys, and delivers to the Assignee all of the Assignor's right, title and interest in and to the Patents and the following properties and rights with respect to the Patents:

- i. the inventions claimed or described in the Patents;
- ii. any continuations, continuations in part, divisions, renewals, reissues and extensions of the Patents;
- iii. all income, royalties, damages and payments due or payable to the Assignor with respect to the Patents, including without limitation unpaid damages and payments for past, present, and future infringements of any of the Patents; and
- iv. all rights to sue and recover damages and payments for past and present ~~infringements of any of the Patents, including the right to fully and entirely replace the~~ Assignor in all related matters.

2. The foregoing rights in and under the Patents shall apply to the full end of their terms as fully as the Assignor would have held the same in the absence of this Patent Assignment. As of the date set forth below, the Assignee has succeeded to all right, title, and standing of the Assignor to (i) receive all rights and benefits pertaining to the Patents; and (ii) commence, prosecute, defend and settle all claims and take all actions that the Assignee, in its sole discretion, may elect in relation to the Patents and rights described above.

3. This Patent Assignment (i) is irrevocable and effective upon the Assignor's signature to, and delivery of a signed copy of, this Patent Assignment; (ii) benefits and binds the parties to the Agreement and the APA and their respective successors and assignees; and (iii) does not modify or affect, and is subject to, the provisions of the Agreement and the APA.
