DECLARATION OF OWNERSHIP INTEREST

Honorable Sir:

This Declaration of Ownership Interest is submitted to clarify the assignment record with respect to the above-identified patent application (US 11/624,606), which as evidenced by the attached filing receipt, dated February 12, 2007, was originally filed on January 18, 2007 by inventors SUHM, RAUSCHENBURGER, LILGE, HINGMANN, and STRICKER.

As noted in the filing receipt, the above-identified application is a continuation of U.S. Pat App. No. 10/168,215 ("the Parent Application").

As further evidenced by the attached original assignment document recorded relative to the Parent Application at REEL/FRAME 013220/0645 on June 19, 2002, the Parent Application as well as "the entire right, title and interest to any and all Letters Patent ... and ... Continuations ... thereof," was originally assigned from inventors SUHM, RAUSCHENBURGER, LILGE, HINGMANN, and STRICKER to BASELL POLYOLEFINE GmbH.

Subsequent to the above original assignment, two assignments were inadvertently recorded in error relative to the above-identified application. The inadvertently recorded assignments purport to transfer the above-identified application to The Clorox Company. The assignments recorded in error area as follows:

SN: 11/624,606

1. Assignment #1 from Goldschmidt GmbH to The Clorox Company, recorded at Reel/Frame No. 017536/0745 on February 2, 2006; and,

2. Assignment #2 from RUSSEL, COUTTS, SEROBIAN, and PIVNKA to The Clorox Company, recorded at Reel/Frame No. 017538/0850 on February 2, 2006.

The undersigned respectfully submits that the alleged assignments to The Clorox Company were inadvertently submitted relative to the above-identified patent application and are improper/invalid. That is, Goldschmidt GmbH did not, at any time, possess an ownership interest in the above-identified patent application or the parent application thereof. Similarly, individuals RUSSELL, COUTTS, SEROBIAN, and PIVNKA did not, at any time, possess an ownership interest in the above-identified patent application or parent application.

Accordingly, the undersigned respectfully submits that Basell Polyolefine GmbH remains the sole owner of a one-hundred percent, undivided interest in the above-identified application and respectfully requests that the assignment record be corrected to reflect the same.

Respectfully submitted,

Novak Druce + Quigg LLP

S. Peter Konzal

## **PROTECTING YOUR INVENTION OUTSIDE THE UNITED STATES**

Since the rights granted by a U.S. patent extend only throughout the territory of the United States and have no effect in a foreign country, an inventor who wishes patent protection in another country must apply for a patent in a specific country or in regional patent offices. Applicants may wish to consider the filing of an international application under the Patent Cooperation Treaty (PCT). An international (PCT) application generally has the same effect as a regular national patent application in each PCT-member country. The PCT process **simplifies** the filing of patent applications on the same invention in member countries, but **does not result** in a grant of "an international patent" and does not eliminate the need of applicants to file additional documents and fees in countries where patent protection is desired.

Almost every country has its own patent law, and a person desiring a patent in a particular country must make an application for patent in that country in accordance with its particular laws. Since the laws of many countries differ in various respects from the patent law of the United States, applicants are advised to seek guidance from specific foreign countries to ensure that patent rights are not lost prematurely.

Applicants also are advised that in the case of inventions made in the United States, the Director of the USPTO must issue a license before applicants can apply for a patent in a foreign country. The filing of a U.S. patent application serves as a request for a foreign filing license. The application's filing receipt contains further information and guidance as to the status of applicant's license for foreign filing.

Applicants may wish to consult the USPTO booklet, "General Information Concerning Patents" (specifically, the section entitled "Treaties and Foreign Patents") for more information on timeframes and deadlines for filing foreign patent applications. The guide is available either by contacting the USPTO Contact Center at 800-786-9199, or it can be viewed on the USPTO website at <http://www.uspto.gov/web/offices/pac/doc/general/index.html>.

For information on preventing theft of your intellectual property (patents, trademarks and copyrights), you may wish to consult the U.S. Government website, <http://www.stopfakes.gov>. Part of a Department of Commerce initiative, this website includes self-help "toolkits" giving innovators guidance on how to protect intellectual property in specific countries such as China, Korea and Mexico. For questions regarding patent enforcement issues, applicants may call the U.S. Government hotline at 1-866-999-HALT (1-866-999-4158).

**LICENSE FOR FOREIGN FILING UNDER  
Title 35, United States Code, Section 184  
Title 37, Code of Federal Regulations, 5.11 & 5.15**

**GRANTED**

**PATENT  
REEL: 024939 FRAME: 0303**

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Bureau of Industry and Security, Department of Commerce (15 CFR parts 730-774); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

**NOT GRANTED**

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
