Whereas, I, David Cook of Novi, MI, ("Applicant"), am the owner of a certain invention, or improvement in an invention, entitled:

**"MOBILE DIESEL POWER SYSTEM WITH SEPARATED ENGINE AND
EXHAUST"**

which is disclosed in a United States non-provisional utility patent application, prepared by Richards Patent Law, P.C., and referenced as attorney docket number 1056-002 ("Invention").

Whereas, Clean Rolling Power, LLC of Michigan ("Assignee"), desires to acquire the entire right, title and interest in the Invention;

Now, therefore, in consideration of the sum of one dollar, the receipt of which is hereby acknowledged, and for other good and valuable consideration, Applicant sells, assigns and transfers unto Assignee the full and exclusive right to the Invention in the United States and the entire right, title and interest in and to any and all patents which may be granted therefore in the United States and all rights and privileges under the patents that may be granted therefor, including the right to claim the benefit of an earlier filing date for the same invention in a foreign country. Applicant hereby authorizes and requests the Director of the U.S. Patent and Trademark Office to issue said United States patent(s) to Assignee fully and entirely.

For the same consideration, Applicant hereby agrees to promptly communicate to the Assignee, or its assigns, full and complete information concerning the Invention and will cooperate at any time upon request of said Assignee, or its assigns, at Applicant's expense, in the procurement of patent protection to cover the Invention, including the execution of new, divisional, continuing, reexamination and reissue applications. Applicant will make all rightful oaths, will testify in any proceedings in the United States Patent Office or in the courts, and generally will do everything lawfully possible to aid Assignee, its successors, assigns and nominees to obtain, enjoy and enforce their patent rights.
