ASSIGNMENT OF PATENT

Whereas I, Earl Votolato of Newport Beach, California hereafter referred to as "Patentee," have invented certain new and useful improvements in Aisle Barriers for which a United States Patent Number D623,766 was issued on September 14, 2010.

Whereas Spellbound Development Group, Inc. of Irvine, CA, herein referred to as "Assignee," is desirous of acquiring the entire right, title and interest in the same;

Now, therefore, in consideration of good and valuable consideration, the receipt and sufficiency whereof is acknowledged, I, the Patentee, do hereby sell, assign and transfer unto said Assignee the full and exclusive right to the said invention in the United States and the entire rights, title and interest in and to any and all Patents which may be granted therefore in the United States, for its sole use and behoof, and for the use and behoof of its legal representatives, to the full end of the term for which said Patent may be granted, as fully and entirely as the same would have been held by me had this assignment and sale not been made.

Executed this 21 day of September, 2010 at Irvine, California.

Earl Votolato
