Country, Region or Treaty: United States of America
Application No.: 11/464,308
Title:
Inventor: Paul Douglas Stoner
Filing Date: August 14, 2006

Agree that said Assignee may apply for, receive and maintain Letters Patent for said inventions in its own name; and that said Assignor, when requested, without charge to but at the expense of said Assignee, its successors, assigns and legal representatives, in order to carry out in good faith the intent and purpose of this assignment, will execute all reissue applications on any and all said improvements; execute all rightful oaths, assignments, powers of attorney and other papers for all countries, regions and under all treaties, communicate to said Assignee, its successors, assigns and representatives, all facts known to the undersigned Assignor relating to said inventions and the history thereof; and generally do everything possible which said Assignee, its successors, assigns or representatives shall reasonably consider desirable for aiding in securing and maintaining proper patent protection for said inventions, for complying with applicable laws and for vesting title to said inventions, applications and patents in said Assignee, its successors, assigns and legal representatives; and

Covenants with said Assignee, its successors, assigns and legal representatives that no assignment, grant, mortgage, license or other agreement affecting the rights and property herein conveyed has been made to others by the undersigned, and that the full right to convey the same as herein expressed is possessed by the undersigned; and

Hereby consent that a copy of this assignment shall be deemed a full legal and formal equivalent of any document which may be required in any country in proof of the right of said Assignee to apply for a patent or other form of protection for said inventions and to claim the aforesaid benefit of the right of priority.
