A S S I G N M E N T
(for Patents and Patent Applications)

In consideration of good and valuable consideration, the receipt of which is hereby acknowledged that the undersigned,

ASSIGNOR(S): CNM Acquisition LLC
8000 NE Parkway Drive, Suite 100
Vancouver, Washington 98662
United States of America

hereby sell, assign, and transfer to

ASSIGNEE: U.S. Natural Resources, Inc.
8000 NE Parkway Drive, Suite 100
Vancouver, Washington 98662
United States of America

and its successors, assigns, and legal representatives, the entire right, title, and interest for the United States and all foreign countries,

- in and to the patents and patent applications that are listed in Attachment A to this Assignment Agreement, as well the entire right, title, and interest for the United States and all foreign countries in and to all of Assignee's interest in any patents and patent applications which are not specifically listed in Attachment A, but in which the Assignee is the owner of a partial or entire interest (collectively referred to hereinafter as "Assigned Patents");
- in and to said application and all divisional applications, continuation applications, continued prosecution applications, continuation-in-part applications, substitute applications, renewal applications, reissue applications, reexaminations, extensions, and all other patent applications that have been or shall be filed in the United States and all foreign countries on any of said Assigned Patents and to any Improvements on said Assigned Patents (collectively referred to hereinafter as "Related Patents"); and
- in and to all original patents, reissued patents, reexamination certificates, and extensions, that have been or shall be issued in the United States and all foreign countries on said Assigned Patents, Related Patents, and Improvements;

The Assignor hereby agrees that said Assignee may apply for and receive a patent or patents for said Improvements and Related Patents in its own name; and that, when requested, without charge to, but at the expense of, said Assignee, its successors, assigns, and legal representatives, to carry out in good faith the intent and purpose of this Assignment, the undersigned will execute all divisional applications, continuation applications, continued prosecution applications, continuation-in-part applications, substitute applications, renewal applications, reissue applications, reexaminations, extensions and all other patent applications as reasonably requested; execute all rightful oaths, assignments, powers of attorney, and other papers; communicate to said Assignee, its successors, assigns, and representatives all facts known to the undersigned relating to said Assigned Patents and improvements and the history thereof; and generally assist said Assignee, its successors, assigns, or representatives in securing and maintaining proper patent protection for said improvements and for vesting title to said Assigned Patents and improvements, in said Assignee, its successors, assigns, and legal representatives.

The Assignor further covenants with said Assignee, its successors, assigns, and legal representatives that no assignment, grant, mortgage, license, or other agreement affecting the rights and property herein conveyed has been made to others by the undersigned, and that full right to convey the same as herein expressed is possessed by the undersigned.
