## ASSIGNMENT AND ASSUMPTION OF INTELLECTUAL PROPERTY

THIS INTELLECTUAL PROPERTY ASSIGNMENT AGREEMENT (“Agreement”), effective as of September 30, 2010 (the “Effective Date”), is entered into by and between MeadWestvaco Corporation, MeadWestvaco Consumer Packaging Group, LLC and Rigesa Cellulose, Papel e Embalagens Ltda.(collectively, “Assignors”), and Atlas AGI Holdings, LLC, a Delaware limited liability company (“Assignee”) hereinafter collectively referred to as the “Parties.”

WHEREAS, Assignors own all right, title, and interest, in the Purchased Intellectual Property, including the Trademarks, Patents and Internet domain names (as such terms are defined in the Purchase Agreement);

WHEREAS, pursuant to the Equity and Asset Purchase Agreement (the “Purchase Agreement”), dated September 1, 2010, between MeadWestvaco Corporation and Atlas Capital Resources (A2) LP, Assignors desire to assign to Assignee, and Assignee desires to acquire from Assignors, any and all rights that Assignors have in and to the Purchased Intellectual Property, including the Trademarks, Patents and Domain Names;

NOW, THEREFORE, in consideration of the promises and agreements set forth herein, and for other good and valuable consideration, the adequacy and sufficiency of which are hereby acknowledged, the Parties, each intending to be legally bound, hereby agree as follows:

1. Assignment of Rights. Except for the Excluded IP Assets (as defined in the Purchase Agreement), Assignors hereby assign and transfer to Assignee all right, title and interest in and to:

a) the Trademarks included in the Purchased Intellectual Property, including those listed in the attached Schedule A, and all of the goodwill of the business symbolized by any of the Trademarks, together with all claims for damages by reason of infringement of the same;

b) the Patents included in the Purchased Intellectual Property, including those listed in the attached Schedule A, together with all claims for past and future damages by reason of infringement of the same, with the right to sue for past and future damages and collect the same for its own use and enjoyment, and for the use and enjoyment of its successors, assigns or other legal representatives; and

c) the Internet domain names included in the Purchased Intellectual Property, including those listed in the attached Schedule A.

Assignors expressly agree that at any time and from time to time hereafter, at the request of Assignee, Assignors shall take any and all steps and execute, acknowledge and deliver to Assignee any and all further instruments and assurances reasonably necessary or expedient in order to vest the rights described herein more effectively in Assignee.

2. Assistance in Protecting and Enforcing Rights. Upon Assignee’s request, Assignors will provide such reasonable non-monetary assistance as may be reasonably necessary or appropriate for Assignee to protect and enforce its rights in the Intellectual Property and Technology, including but not limited to providing information, affidavits, declarations, and

testimony in connection with litigation, arbitration, mediation, opposition, cancellation and interference proceedings.

3. Relation to Purchase Agreement. The provisions of this Agreement are subject, in all respects, to the terms and conditions of the Purchase Agreement and this Agreement shall not in any way supersede the Purchase Agreement, which remains in full force and effect and the parties thereto shall have the rights, duties and obligations provided for thereunder. In the event of any conflict or other inconsistency between this Agreement and the Purchase Agreement, the Purchase Agreement shall be the controlling agreement.

4. Applicable Law. This Agreement shall be governed by and construed and enforced in accordance with the laws of the State of Delaware without giving effect to the principles of conflict of laws thereof to the extent that such principles would permit or require the application of laws of another jurisdiction.

5. Counterparts. This Agreement may be executed by facsimile and in counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument.

6. Severability. If any provision of this Agreement is determined by a court of competent jurisdiction to be invalid, illegal or unenforceable, such determination shall not affect the validity of the remaining provisions.

7. Waiver. The failure of any party to enforce at any time the provisions of this Agreement shall in no way be construed to be a present or future waiver of such provisions, nor in any way affect the ability of any party to enforce each and every such provision thereafter.
