ASSIGNMENT

Whereas, the undersigned inventors (hereinafter referred to as "ASSIGNOR"), have invented certain new and useful improvements in Tool-Less Quick Change Valving Rod for which an application is made for Letters Patent of the United States, said application having been executed on even date herewith, and which may be identified in the United States Patent Office by Serial No. 29/267,512 filed on December 8, 2009; and

Whereas, Graco Minnesota Inc., (hereinafter referred to as "ASSIGNEE"), a corporation organized and existing under the laws of Minnesota; and having its principal offices at 88 11th Ave. N.E., Minneapolis, Minnesota, 55413; is desirous of acquiring the entire right, title and interest in and to said invention, said application and in, to and under any and all Letters Patent to be obtained therefor;

Now, therefore, for and in consideration of One Dollar (\$1.00) and other good and valuable consideration to ASSIGNOR in hand paid by ASSIGNEE, the receipt of which is hereby acknowledged, ASSIGNOR has sold, assigned and transferred, and by presents does hereby sell, assign and transfer unto the ASSIGNEE, its successors and assigns, my entire right, title and interest in and to said invention, said application and Letters Patent, in the United States and all countries throughout the world, and any continuations, continuations-in-part, and divisions thereof that may or shall issue, including all of its rights under International Conventions, and ASSIGNOR does hereby authorize and request the Commissioner of Patents to issue said Letters Patent to the above-mentioned ASSIGNEE in accordance herewith.

ASSIGNOR hereby authorizes the ASSIGNEE, its successors and assigns, or anyone it may properly designate, to apply for Letters Patent, in its own name if desired, in any and all foreign countries, and additionally to claim the filing date of said United States application and/or otherwise take advantage of the provisions of the International Convention.

Upon said consideration, ASSIGNOR does hereby covenant and agree with the ASSIGNEE, its successors and assigns, that ASSIGNOR will not execute any writing or do any act whatsoever conflicting with these presents, and that ASSIGNOR or its executors or administrators will at any time upon request, without further or additional consideration, but at the expense of the ASSIGNEE, its successors and assigns, execute such additional acts as said ASSIGNEE, its successors and assigns, may deem necessary or desirable to protect the ASSIGNEE's enjoyment of this grant, and render all necessary assistance in making application for and obtaining original, divisional, continuation, continuation-in-part, or reissued or extended Letters Patent of the United States, or any of and all foreign countries, on said invention, and in enforcing any rights, occurring as a result of such applications or patents, by giving testimony in any proceedings or transactions involving such applications or patents.
