PATENT ASSIGNMENT AGREEMENT

WHEREAS, by and with the necessary consents of the board of directors of Fat Spaniel Technologies, Inc. a California corporation ("*Assignor*" or "*Company*") and Assignor's shareholders, on October 5th, 2010, Assignor, in accordance with the assignment for benefit of creditors laws of the State of California, transferred ownership of all of its right, title and interest in and to substantially all of its assets to FS Liquidating (assignment for the benefit of creditors), LLC, a California limited liability company (the "*Assignee*"), and in so doing has also designated Assignee to act as the assignee for the benefit of creditors of Assignor (the "*General Assignment*");

WHEREAS, pursuant to the terms of the General Assignment Agreement between Assignor and the Assignee, all of Assignor's rights title and interest in and to its patents and patent applications and related rights have been assigned to the Assignee;

WHEREAS, Assignor is the owner of the entire right, title and interest in and to those patents and patent applications and related rights, including those set forth on Schedule A attached hereto, and of the inventions described therein (the "Assigned Patents"); and

WHEREAS, Assignor and Assignee desire to memorialize the transfer of the Assigned Patents to Assignee.

NOW, THEREFORE, BE IT KNOWN, pursuant to the General Assignment Agreement, Assignor has irrevocably conveyed, assigned, transferred, delivered and set over for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, and does hereby irrevocably convey, assign, transfer, deliver and set over, unto said Assignee, its successors and assigns, (1) the entire worldwide right, title and interest in and to each and all Letters Patents and patent applications in the United States and in all foreign countries including, without limitation, corresponding Patent Cooperation Treaty patent applications and corresponding National patent applications and all inventions, improvements and discoveries disclosed in said Letters Patents and applications which were held by the Assignor, including those set forth in Schedule A hereto, and in and to all substitutions, divisions, continuations, continuations-in-part, reexaminations, extensions, renewals and reissues (as applicable) thereof, including without limitation of generality, all rights of priority resulting from the filing of patent applications relating to any of the foregoing as well as any and all choses in action and any and all claims and demands, both at law and in equity, that Assignor has or may have for damages or profits accrued or to accrue on account of the infringement of any of said Letter Patents, patent applications, inventions, improvements and discoveries (or any provisional rights therein), the same to be held and enjoyed by Assignee, its successors and assigns, as fully and entirely as the same would have been held and enjoyed by the Assignor if the assignment set forth in this Patent Assignment had not been made; (2) the full and complete right to file patent applications in the name of the Company or its designee, at the Assignee's, or its designee's election, on the aforesaid inventions, improvements, discoveries and applications in all countries of the world; and (3) the entire right, title and interest in and to any Letter Patent which may issue thereon in the United States or in any country, and any renewals, revivals, reissues, reexaminations and extensions thereof, and any patents of confirmation, registration and importation of the same.

AND the Assignor further agrees that should additional or further documentation of the assignment or further acts be required to protect, secure, vest and record good title to the Assigned Patents in Assignee, Assignor will, without further consideration, provide or
