PATENT ASSIGNMENT AGREEMENT

THIS PATENT ASSIGNMENT AGREEMENT (this "ASSIGNMENT") is made and entered into as of October 31, 2010, by and among CAN & BOTTLE SYSTEMS, INC., an Oregon corporation having a principal place of business at 2525 SE Stubb Street, Milwaukie, Oregon 97222 (hereinafter "ASSIGNOR") and TOMRA / CBSI ACQUISITION, LLC, a Delaware limited liability company, having a principal place of business at One Corporate Drive, Suite 710, Shelton, Connecticut 06584 (hereinafter "ASSIGNEE").

WHEREAS, ASSIGNOR is the owner of certain United States and/or foreign patents and/or pending patent applications identified in Schedule A hereto (collectively the "Patents"); and

WHEREAS, ASSIGNEE is desirous of acquiring, and ASSIGNOR is desirous of transferring and assigning all of its right, title and interest in and to said Patents to ASSIGNEE.

NOW, THEREFORE, for and in exchange for the payment of the purchase price set forth in the Asset Purchase Agreement dated as of October 28, 2010 by and among the ASSIGNOR, the ASSIGNEE, and others, and other good and valuable consideration and the mutual covenants and promises contained in this Assignment, the receipt and sufficiency of which are acknowledged, ASSIGNOR and ASSIGNEE, intending to be legally bound, agree as follows:

1. ASSIGNOR does hereby sell, assign, transfer and convey to ASSIGNEE, all of ASSIGNOR's worldwide right, title and interest in, to and under the Patents, free and clear of liens or encumbrances, together with all continuations, divisions, reissues and extensions thereof and the inventions described and claimed therein, and all United States, Canada and foreign patents and filings (including without limitation, those patent applications and filings set forth on **Schedule A**), utility models, and design registrations that may be (or have been) filed or granted based on such inventions or improvements, and the right to claim priority based on the filing date of the applications and patents under the International Convention for the Protection of Industrial Property, the Patent Cooperation Treaty, the European Patent Convention, and all other treaties of like purposes, all rights to sue for infringement of the Patents, whether arising prior to or subsequent to the Effective Date, all income, royalties or payments due or payable as of the Effective Date or thereafter with respect to the Patents, the same to be held and enjoyed by ASSIGNEE, its successors and assigns from and after the date of this Assignment as fully and entirely as the same would have been held and enjoyed by ASSIGNOR had this Assignment not been made.

2. ASSIGNOR hereby further agrees and covenants that ASSIGNOR, or ASSIGNOR's legal representatives and assigns, as the case may be, shall execute and convey as directed upon ASSIGNEE's request (or the request of ASSIGNEE's successor or assigns), any and all other documents, information, evidence or facts requested by ASSIGNEE that are known or available to ASSIGNOR (or its successor or assigns) relating to said inventions, patents and patent applications, or the history thereof, as ASSIGNEE reasonably deems advisable or necessary in order to fully vest all rights herein transferred to ASSIGNEE in ASSIGNEE, and will testify as to the same in any interference or other litigation or legal proceeding when requested so to do.

3. ASSIGNOR hereby authorizes the Commissioner of Patents and Trademarks (and the equivalent authority in foreign patent offices) to transfer the Patents and any Patent applications to ASSIGNEE as assignee of the entire right, title and interest therein or otherwise as ASSIGNEE may direct, in accordance with this instrument of assignment.

4. This Assignment constitutes the entire agreement and supersedes all prior agreements between the parties pertaining solely to the transfer of the Patents, and shall be deemed binding upon the parties, their heirs, legal representatives and successors.

5. This Assignment shall be governed by and construed and interpreted in accordance with the laws of the State of Oregon.

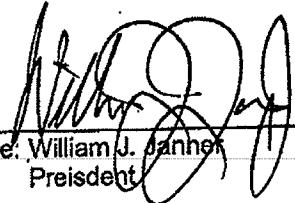

6. ASSIGNOR and ASSIGNEE hereby grant to GREENBERG TRAURIG, LLP, of 3290 Northside Parkway, Suite 400, Atlanta, Georgia, U.S.A., the authority and power to insert on this instrument any further identification which may be necessary or desirable for purposes of recordation in the United States Patent and Trademark Offices and foreign patent and trademark offices.
