ASSIGNMENT

For good and valuable consideration, the receipt of which is hereby acknowledged, PAX SCIENTIFIC, INC., a CALIFORNIA CORPORATION, subject to all licenses previously granted by PAX SCIENTIFIC, INC., does hereby sell, assign, and transfer to PAX STREAMLINE, INC., a DELAWARE CORPORATION with offices at 1615 Fifth Avenue, San Rafael, California ("Assignee"), and its successors, assigns, and legal representatives, PAX SCIENTIFIC, INC.'s entire right, title and interest for the United States and all foreign countries, in and to the list of PATENTS AND APPLICATIONS attached hereto as EXHIBIT A (the "Contributed Patents") and all utility, continuation, continuations-in-part, divisional, substitute, renewal, reissue, and all other patent applications, which have been or shall be filed in the United States and all foreign countries as provided for by the Assignment and License Agreement entered into by and between by PAX SCIENTIFIC, INC. and PAX STREAMLINE, INC. and dated as of September 24, 2007 (the "Assignment and License Agreement"); and in and to all original and reissued patents which have been or shall be issued in the United States and all foreign countries as provided for by the Assignment and License Agreement; and in and to all rights of priority related thereto; and

Agrees that said Assignee may apply for and receive patents in its own name; and that, when requested, without charge to, but at the expense of, said Assignee, its successors, assigns and legal representatives, to carry out in good faith the intent and purpose of this Assignment, PAX SCIENTIFIC, INC. will execute all utility, continuation, continuations-in-part, divisional, substitute, renewal, reissue, and all other patent applications as provided for by the Assignment and License Agreement; execute all rightful oaths, assignments, powers of attorney and other papers; communicate to said Assignee, its successors, assigns, and representatives, all facts known to PAX SCIENTIFIC, INC. relating to the Contributed Patents and the history thereof; and generally do everything possible which said Assignee, its successors, assigns or representatives shall consider desirable for aiding in securing and maintaining proper patent protection for and for vesting title to the Contributed Patents and all other patent applications provided for by the Assignment and License Agreement, in said Assignee, its successors, assigns and legal representatives; and

Covenants with said Assignee, its successors, assigns and legal representatives that no assignment, grant, mortgage, license or other agreement affecting the rights and property herein conveyed has been made to others by PAX SCIENTIFIC, INC. with the exception of those expressly identified in the Assignment and

License Agreement, and that full right to convey the same as herein expressed is possessed by PAX
SCIENTIFIC, INC.

PAX SCIENTIFIC, INC.
