ASSIGNMENT

WHEREAS, we, Walter J. Braun, Sr.; Anthony A. Boiarski; Walter J. Braun, Jr., and Steven P. Braun, have made a certain new and useful invention relating to METHOD AND APPARATUS FOR DETECTING VISCOSITY CHANGES IN FLUIDS, for which we have obtained a Letters Patent of the United States, said Letters Patent being identified as United States Patent Number 5,629,209, which issued on May 13, 1997, from United States Patent Application Serial Number 08/545,523, filed October 19, 1995;

WHEREAS, Braun Biosystems, Inc. (hereinafter "Assignee"), a Colorado Corporation, whose post office address is 6746 South Revere Parkway, Suite 140, Centennial, CO 80112, is desirous of acquiring the entire interest in and to said invention and said Letters Patent including the right to sue and recover for past, present, and future infringement thereof;

NOW THEREFORE, for valuable consideration, receipt and adequacy of which is hereby acknowledged, we have sold, assigned, and set over, and do hereby sell, assign, and set over, unto the Assignee and said Assignee's legal representatives, successors, and assigns, the entire right, title, and interest in and to said invention and said Letters Patent including the right to sue and recover for past, present, and future infringement thereof, both foreign and domestic, that may or shall issue thereon including all original, divisional, continuation, continuation-in-part, reissue, certificate of reexamination, and related applications.

UPON SAID CONSIDERATION, we do hereby covenant and agree with the said Assignee that we will not execute any writing or do any act whatsoever conflicting with these presents, and that we will, at any time upon request, without further or additional consideration, but at the expense of the said assignee, execute such additional assignments and other writings and do such additional acts as said Assignee may deem necessary or desirable to perfect the Assignee's enjoyment of this grant, and render all necessary assistance in making application for and obtaining original, divisional, continuation, continuation-in-part, renewal, continuing, reissued or extended Letters Patent of the United States, or of any
