ASSIGNMENT

In consideration of 500 (five hundred) shares with a nominal value of one euro (EUR 1.-) each in MCD Technologies S.à r.l. a company incorporated under the laws of the Grand Duchy of Luxembourg, whose mailing address is L-1420 Luxembourg, 15-17, Avenue Gaston Diderich and other good and valuable consideration provided to the undersigned inventor: Mikhail Rudolfovich Predtechensky, hereby sells and assigns to MCD Technologies S.à r.l. a company incorporated under the laws of the Grand Duchy of Luxembourg, whose mailing address is L-1420 Luxembourg, 15-17, Avenue Gaston Diderich (hereafter referred to as the Assignee), his entire right, title and interest, including the right to sue for past infringement and to collect for all past, present and future damages, for the United States of America (as defined in 35 U.S.C. § 100) and throughout the world,

(a) in the invention(s) known as PLASMA-CHEMICAL REACTOR for which application(s) for patent in the United States of America was filed on May 23, 2002 (also known as United States Application No. 10/069,648, which is the U.S. national phase of PCT/RU00/00257, international filing date June 27, 2000, now U.S. Patent No. 6,846,467 B1), in any and all applications thereon, in any and all Letters Patent(s) therefore, and

(b) in any and all applications that claim the benefit of the patent application listed above in part (a), including nonprovisional applications, continuing (continuation, divisional, or continuation-in-part) applications, reissues, extensions, renewals and reexaminations of the patent application or Letters Patent therefore listed above in part (a), to the full extent of the term or terms for which Letters Patents issue, and

(c) in any and all inventions described in the patent application listed above in part (a), and in any and all forms of intellectual and industrial property protection derivable from such patent application, and that are derivable from any and all continuing applications, reissues, extensions, renewals and reexaminations of such patent application, including, without limitation, patents, applications, utility models, inventor's certificates, and designs together with the right to file applications therefore; and including the right to claim the same priority rights from any previously filed applications under the International Agreement for the Protection of Industrial Property, or any other international agreement, or the domestic laws of the country in which any such application is filed, as may be applicable;

(d) all such rights, title and interest to be held and enjoyed by the above-named Assignee, its successors, legal representatives and

(e) assigns to the same extent as all such rights, title and interest would have been held and enjoyed by the Assignor had this assignment and sale not been made.

The undersigned inventor agrees to execute all papers necessary in connection with the application(s) and any nonprovisional, continuing (continuation, divisional, or continuation-in-part), reissue, reexamination or corresponding application(s) thereof and also to execute separate assignments in connection with such application(s) as the Assignee may deem necessary or expedient.

The undersigned inventor agrees to execute all papers necessary in connection with any interference or patent enforcement action (judicial or otherwise) related to the application(s) or any non-provisional, continuing (continuation, divisional, or continuation-in-part), reissue or reexamination application(s) thereof and to cooperate with the Assignee in every way possible in obtaining evidence and going forward with such interference or patent enforcement action.

The undersigned inventor hereby represents that he has full right to convey the entire interest herein assigned, and that he has not executed, and will not execute, any agreement in conflict therewith.

The undersigned inventor hereby grants George S. Bardmesser, Esq., Registration No. 44,020; all of BARDMESSER LAW GROUP, 1025 Connecticut Avenue, N.W., Suite 1000, Washington, DC 20006, power to insert in this assignment any further identification that may be necessary or desirable in order to comply with the rules of the United States Patent and Trademark Office for recordation of this document.

IN WITNESS WHEREOF, executed by the undersigned inventor on the date opposite his name.

Date: 3 December 2010

Signature of Inventor:

Mikhail Rudolfovich Predtechensky
