- (c) Any Intellectual Property Rights in the registered intellectual property, applications for registration of Intellectual Property Rights and domain names listed in the Schedule hereto (the "Registered IP"); and
- (d) preparatory or specification documents and materials created;

by you in the course of your employment by ChipSensors (the "Chipsensors IP") is (and has been from the beginning) the property of and vests solely and absolutely in ChipSensors and that you shall disclose such immediately to ChipSensors to the extent not already explicitly disclosed to ChipSensors.

To the extent that any Chipsensors IP did not so vest in ChipSensors, you now assign and transfer to ChipSensors absolutely free from encumbrances, charges, liens or any other adverse right or interest: (a) all right, title and interest in relation to the Chipsensors IP including all Intellectual Property Rights, statutory and common law rights and goodwill attaching to such; (b) the right to sue for damages and other remedies in respect of any past infringements and to retain any damages obtained as a result of such action to ChipSensors; (c) all rights and benefits relating to the above including without limitation any right to claim priority from any of the above; and (d) any Intellectual Property Rights that will be created by or vest in you in relation to the Chipsensors IP, to the extent permitted by applicable law.

You also acknowledge that any rights of action which have accrued or will accrue in respect of the IP vest solely and absolutely in ChipSensors. You agree that at no time will you attempt to assert any rights or make any claim in respect of any of the Chipsensors IP against ChipSensors or its licensees or successors in title.

At ChipSensors' cost, you also agree at any later time to execute any documentation or otherwise provide assistance to ChipSensors (or those of ChipSensors' successors in title) to secure, protect, perfect or enforce any of ChipSensors' rights, title and interests referred to in this letter including, without limitation, executing any documentation required to publicly record ChipSensors as proprietor of the Registered IP. You also confirm that any relevant moral rights in the Chipsensors IP have been waived and for the avoidance of doubt this waiver shall extend to ChipSensors' licensees and successors in title.

You irrevocably appoint ChipSensors to be your attorney to act in your name and on your behalf to execute and do any such instruments and things and generally to use your name for the purpose of giving to ChipSensors (or its nominee) the full benefit of the matters set out in this letter.
