ASSIGNMENT

WHEREAS, I, LOUIS R. CSAK, Citizen of USA, residing at 15 MORTIMER DRIVE, OLD GREENWICH, CT 06870 (hereinafter referred to as "ASSIGNOR") believes that I have invented an improvement in AN ELECTRICAL CONNECTOR HAVING A REINFORCED SPIN RING AND A METHOD OF MANUFACTURING SAME, Attorney Docket No. LEX-0002 and have executed an application for a United States patent based thereon [simultaneously herewith].

AND, WHEREAS, LEX PRODUCTS CORPORATION of 15 Progress Drive, Shelton, CT 06484, a corporation of the State of Connecticut (hereinafter referred to as "ASSIGNEE"), is desirous of acquiring certain rights thereunder;

NOW, THEREFORE, for one dollar and other good and valuable consideration, receipt of all of which is hereby acknowledged, I have agreed to and do hereby sell, assign, and transfer unto said ASSIGNEE any and all right, title, and interest that I have in and throughout the United States of America (including its territories and dependencies) and all countries foreign thereto in and to said invention, said United States application, any other United States applications (including provisional, non-provisional, divisional, continuing, or reissue applications) based in whole or in part on said United States application or in whole or in part on said invention, any foreign applications based in whole or in part on any of the aforesaid United States applications or in whole or in part on said invention, and any and all patents (including extensions thereof) of any country which have been or may be granted on any of the aforesaid applications or on said invention or any part thereof;

TO BE HELD AND ENJOYED by said ASSIGNEE, its successors and assigns, as fully and entirely as the same would have been held and enjoyed by me had no sale and assignment of said interest been made;

AND I hereby authorize and request the Commissioner of Patents of the United States of America to issue any and all United States patents which may be granted upon said United States applications or any of them, or upon said invention or any part thereof, to said ASSIGNEE;

AND I hereby agree for myself and for my heirs, executors and administrators, to execute without further consideration any further lawful documents and any further assurances, and any provisional, non-provisional, divisional, continuing, reissue, or other applications for patents of any country, that is reasonably necessary to fully secure to said ASSIGNEE its interest as aforesaid in and to said invention or any part thereof, and in and to said several patents or any of them;
