PATENT ASSIGNMENT

WHEREAS, ALLEN TELECOM LLC, a Delaware limited liability company, ("Assignor") has agreed to assign to **ANDREW LLC**, a Delaware limited liability company, ("Assignee") all of Assignor's rights in the Letters Patent set forth on Schedule A attached hereto ("Patent"), along with the right to recover damages for infringements thereof;

NOW THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, Assignor hereby assigns to Assignee, its successors, assigns, and legal representatives forever, all right, title, and interest of Assignor in and to the Patent, together with any rights of Assignor to sue for and recover any profits, penalties, expenses and other damages arising out of or related to any past, present and/or future infringement of the Patent. The right, title and interest is to be held and enjoyed by Assignee and Assignee's successors, assigns, and legal representative as fully and exclusively as it would have been held and enjoyed by Assignor had this assignment not been made, for the full term of the Patent, or of any reissue, reexamination, prolongation or extension thereof. Assignor further agrees that, upon request by Assignee, Assignor shall promptly execute and deliver such documents and instruments and perform such other acts as may be reasonably required in order to vest all of Assignor's right, title and interest in and to the Patent in Assignee, including the delivery to Assignee of any relevant evidence in Assignor's possession or control that may be reasonably required to support the foregoing, without further consideration.

This the 5th day of January, 2011.
