Title: COMMUNICATION SYSTEM FOR IMPACT SENSORS

ASSIGNMENT

WHEREAS, I, Christoph Mack, residing at 1120 21st Avenue East, Seattle, Washington 98112, am one of the inventors named in the above-identified United States patent application;

WHEREAS, I, Christopher B. Doughty, residing at 7344 – 31st Avenue SW, Seattle, Washington 98126, am one of the inventors named in the above-identified United States patent application;

WHEREAS, I, Robert Snook, residing at 6331 NE 185th Street, Kenmore, Washington 98028, am one of the inventors named in the above-identified United States patent application;

WHEREAS, I, Nick Vallidis, residing at 1522 NW 58th St., Apt. C., Seattle, Washington 98107, am one of the inventors named in the above-identified United States patent application;

AND, WHEREAS, X2Impact, Inc., a Washington corporation, having a principal address at 83 Columbia Street, Suite 400, Seattle, Washington 98104 (hereinafter referred to as ASSIGNEE), is desirous of acquiring the entire right, title, and interest in and to the patent application and related inventions;

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, and intending to be legally bound, I hereby assign and transfer to ASSIGNEE the entire right, title, and interest in and to the patent application and related inventions, including all improvements, variations, derivations and inventive subject matter directly or indirectly related to the patent application and inventions, and all provisional or non-provisional patent applications or issued patents that have been or may be granted thereon,

including without limitation all reissues, divisions, continuations, continuations-in-part, and extensions of the patent applications or patents, or any other form of protection for the inventions related to the patent application, in the United States and foreign countries; all rights of action arising from the inventions and all applications and patents on the inventions; all claims for damages by reason of past and future infringement of the inventions and all applications and patents on the inventions, and the right to sue and collect damages for such infringement; all of the foregoing assigned rights to be held and enjoyed by the ASSIGNEE for its own use and benefit and for its successors and assigns as the same would have been held by me had this assignment not been made.

I do hereby further agree and promise to execute all instruments and render all such assistance as ASSIGNEE may request in order to: make and prosecute any and all applications on the inventions, maintain and enforce any and all patents on the inventions, and confirm in ASSIGNEE legal title to the inventions and all applications and patents on the inventions in the United States and foreign countries, all without charge to ASSIGNEE but at no expense to me. In the event that ASSIGNEE is unable for any reason, after reasonable effort, to secure my signature on any document needed in connection with the actions specified in this paragraph, or to otherwise perfect in ASSIGNEE the entire right, title, and interest in and to the patent application and related inventions, I hereby irrevocably designate and appoint the ASSIGNEE and its duly authorized officers and agents as my agent and attorney-in-fact, to act for and in my behalf to execute, verify and file any such documents and to do all other lawfully permitted acts to further the purposes of this assignment with the same legal force and effect as if executed by me. I hereby waive and quitclaim to the ASSIGNEE any and all claims, of any nature whatsoever, which I now or may hereafter have for infringement of any proprietary rights assigned to the ASSIGNEE.
