ASSIGNMENT AGREEMENT

This Agreement is entered into by and between Utility Composites International Ltd., having a place of business at 2704-A Meister Place, Round Rock, Texas 78664 and Utility Composites, Inc., having a place of business at 2704-A Meister Place, Round Rock, Texas 78664.

In consideration of the mutual agreements contained herein and for other good and valuable consideration, acknowledged by each of them to be satisfactory and adequate, the parties hereby agree as follows:

1. Utility Composites International Ltd. hereby assigns to Utility Composites, Inc. the entire right, title and interest to any and all improvements and/or inventions which are disclosed in the patents and patent applications listed in Schedule A, and such patents and patent applications, and all divisional, continuing, substitute, renewal, reissue and all other applications for patent which have been or shall be filed in the United States and/or any other countries on any of such improvements and/or inventions; all original and reissued patents which have been or shall be issued in the United States and/or any other countries on such improvements and/or inventions; and specifically including the right to file applications in any other countries under the provisions of any convention or treaty and claim priority based on such applications in the United States and/or any other countries. The forgoing Assignment is effective January 1, 2011.
2. Utility Composites International Ltd. hereby authorizes and requests any issuing authority to issue to Utility Composites, Inc. any and all patents granted on the above-referenced improvements and/or inventions, including the patent applications identified in Schedule A and any subsequent applications filed in the United States and/or any other countries for the improvements and/or inventions.
3. Utility Composites International Ltd. hereby warrants that no assignment, grant, mortgage, license or other agreement affecting the rights and property herein conveyed has been made to others by the undersigned, and that the full right to convey the same as herein expressed is possessed by the undersigned.
4. Utility Composites International Ltd. hereby agrees that, when requested and at the expense of Utility Composites, Inc., to carry out in good faith the intent and purpose of this assignment, that Utility Composites International Ltd. will execute all divisional, continuing, substitute, renewal, reissue, and all other patent applications on any and all such improvements and/or inventions; execute all rightful oaths, declarations, assignments, powers of attorney and other papers; communicate to Utility Composites, Inc. all facts known to the undersigned relating to such improvements and/or inventions and the history thereof; and generally do everything possible which Utility Composites, Inc. shall consider desirable for securing, maintaining and enforcing proper patent protection for such improvements and/or inventions and for vesting title to such improvements and/or inventions in Utility Composites, Inc.

5. Utility Composites, Inc. shall have the sole right to institute, prosecute and control actions, suits or proceedings ("Actions") against third parties with respect to any past, present, or future infringement of any patent listed in Schedule A, and any patents maturing from the patent applications listed in Schedule A, including any declaratory judgment actions, at its expense, using counsel of its choice. Any receipts from such Actions, including, but not limited to, awards or settlement payments, shall belong to Utility Composite, Inc.

6. This Agreement is binding on the assigns, representatives, and successors of both Utility Composites International Ltd. and Utility Composites, Inc.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement as follows:
