**CONFIRMATORY ASSIGNMENT OF
PATENT APPLICATION BY INVENTOR**

Whereas I, an undersigned inventor (hereinafter "INVENTOR"), have invented certain new and useful improvements as set forth in the patent Application entitled:

RING ENGRAVING FIXTURE

 which bears U.S. application no. 12/884,867 filed 09/17/2010.

For good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, I, an undersigned inventor, hereby:

- (a) Confirm that I assigned all of my right, title and interest to the inventions and discoveries in the present Application to SDL Precision, LLC, a Michigan domestic limited liability company with a registered office address of 400 E. Eighth Street, Traverse City, Michigan 49686 (hereinafter "ASSIGNEE") on July 1, 2010. A copy of this previous assignment was recorded at Reel/Frame 024940/0892 in the U.S. Patent and Trademark Office on September 4, 2010 against related U.S. provisional patent application number 61/243,639 filed September 18, 2009 with the title "Gold Ring Standard". A copy of this previous assignment is attached hereto.
- (b) Insofar as necessary to perfect the rights of ASSIGNEE in the present Application (to the extent that any subject matter in the present Application was not already assigned to ASSIGNEE by me), sell, assign and transfer to ASSIGNEE, (1) the entire right, title and interest, domestic and foreign, and any and all revenues and rights to revenue, for any purpose, associated with commercialization, everywhere in the world, to (A) any and all inventions and discoveries described and/or claimed in the present Application, (B) the present Application, (C) all patents that may be granted thereon, (D) all patent applications or patents which may claim priority of (or serve as the basis for a priority claim by) the present Application (including but not limited to continuations, divisions, continuations-in-part, substitutes, renewals, reissues, reexaminations or extensions thereof, together with all priority rights and counterpart applications under existing or future international patent conventions, agreements or treaties), including the right of ASSIGNEE, its successors, assigns or other legal representatives to make applications and receive Patents (and their equivalents) for said inventions and discoveries in any and all foreign countries in its own name, or in my name, at its election, and I hereby assign, sell and set over to ASSIGNEE, its successors, assigns or other legal representatives, all rights of priority in and to said inventions and discoveries in all countries, and; (2) the right to sue third parties for patent

SDL-001-A

infringement (including but not limited to damages) accruing based on activities occurring prior to the execution date hereof.

(c) Authorize and request the Commissioner of Patents to issue any and all United States Patents resulting from the present Application or any division, continuation, continuation-in-part, substitute, renewal, reexamination or reissue or extension thereof to ASSIGNEE

(d) Agree to execute all papers and documents and, entirely at ASSIGNEE's expense, to communicate to ASSIGNEE any facts known to me respecting the inventions and discoveries, and testify in any legal proceeding, sign all lawful papers, execute all divisional, continuing and reissue applications, make all rightful oaths, execute all papers deemed by ASSIGNEE to be necessary for recording this Assignment, including any Confirmatory Assignments, with the United States Patent and Trademark Office and any foreign patent offices, and generally perform any and all acts which are reasonably necessary and/or which said ASSIGNEE, its successors, assigns or other legal representatives may deem necessary to secure thereto the rights herein assigned, sold and transferred.

(e) Warrant and covenant that no other assignment, license, contract, understanding, interest or other grant to any third party with respect to any of the foregoing has been made, or shall in the future be made, by or on behalf of INVENTOR.

(f) Covenant not to challenge the validity or enforceability of the present Application or of any other patent applications or patents assigned to ASSIGNEE hereunder.

(g) Agree that the terms, covenants and conditions of this assignment shall inure to the benefit of ASSIGNEE, its successors, assigns and other legal representatives, and shall be binding upon INVENTOR, as well as upon INVENTOR's heirs, legal representatives and assigns.

(h) Authorize and request my attorney/agent to insert the application number in the space above in order to assist with recordation of this assignment and/or to insert any other information necessary to perfect this assignment, if necessary.

IN TESTIMONY WHEREOF, I David B. Lark (print name) have executed this Assignment on the date indicated below.

ASSIGNMENT

WHEREAS, we, Christian DeCamillis, of 25 Lakeside Street, Traverse City, Michigan 49684, David B. Lark, of 6641 Schneider Road, Kingsley, Michigan 49649, and David W. Skrzypczak, of 10341 Wildwood Road, Interlochen, Michigan 49643, have invented a multi-functioning ring standard for which we have filed a provisional patent application and intend to make applications for Letters Patent of the United States of America (utility patent), and

WHEREAS, SDL Precision, LLC, a limited liability company, of P.O. Box 249, Grawn, Michigan 49637, having its principal place of business in Grawn, Michigan, desires to acquire the entire right, title and interest in and to said invention;

NOW, THEREFORE, for and in consideration of the sum of One Dollar (\$1.00) and other good and valuable considerations, receipt whereof is hereby acknowledged, we, Christian DeCamillis, David B. Lark and David W. Skrzypczak, by these presents do sell, assign and transfer unto said limited liability company, its successors and assigns, all right, title and interest in the United States of America and all foreign countries in and to said invention as described in the provisional patent application filed September 18, 2009, Application No. 61/243,639, and supporting documentation with regard thereto, and to any improvements on said invention heretofore or hereafter made while we are in the employ, or otherwise associated with said limited liability company, and any division, continuation, renewal or substitute thereof, or said application, and all Patents, United States and foreign, granted upon any such applications or for the inventions described therein, and any reissues or extensions of said Patents; and we hereby authorize and request the Commissioner of Patents to issue all Patents on said United States applications to said limited liability company as assignee thereof.

FOR SAID CONSIDERATIONS, we hereby covenant and agree that we are the owners of the full title herein assigned and have the right to assign the same, and agree that we will communicate to said limited liability company or its representatives, any facts known to me respecting said invention or inventions and testify in any legal proceedings relating thereto when called upon, and will sign all instruments and documents and render such assistance which in the judgment of said limited liability company is necessary to vest in it and protect the legal title sought to be assigned.
