PATENT
REEL: 025789 FRAME: 0082

ASSIGNMENT

WHEREAS, JOSEPH M. CACHIA, an individual located at 10939 BETHEL PARK COURT, LAS VEGAS, NV 89141 and KEN SEGLER, an individual located at 3140 MACAROON WAY, NORTH LAS VEGAS, NV 89031 (hereinafter "Assignors"), have invented a new and useful REPLACEMENT PRINTER CARTRIDGE CHIP WITH A MICROCONTROLLER WITH AN ENCRYPTED MEMORY DEVICE for which an application for Letters Patent has been executed by them; and

WHEREAS, Assignors believe themselves to be the original and joint inventors of the invention as disclosed and claimed in the United States Application for Letters Patent filed on February 8, 2011, serial number 13/022,915, for a REPLACEMENT PRINTER CARTRIDGE CHIP WITH A MICROCONTROLLER WITH AN ENCRYPTED MEMORY DEVICE; and

WHEREAS, UI TECHNOLOGIES, INC., a NEVADA corporation, having a place of business at 3720 W. OQUENDO RD., #103, LAS VEGAS, NV 89118 (hereinafter "Assignee"), desires to acquire by formal, recordable assignment, the entire right, title, and interest in and to the invention, the application, and any Letters Patent that might be granted for the invention in the United States and throughout the world;

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignors have sold, assigned, and transferred, and by these presents do hereby sell, assign, and transfer, unto Assignee, the entire right, title, and interest in and to the invention, the application, and any Letters Patent that might be granted for the invention in the United States and throughout the world, including the right to file foreign applications directly in the name of Assignee and to claim for any such foreign applications any priority rights to which such applications are entitled under international conventions, treaties, or otherwise.

Further, Assignors agree that, upon request and without further compensation, but at no expense to Assignor, each of them and their legal representatives and assigns will perform all lawful acts, including the execution of papers and the giving of testimony, that might be necessary or desirable for obtaining, sustaining, reissuing, or enforcing Letters Patent in the United States and throughout the world for the invention, and for perfecting, recording or maintaining the title of Assignee, and any successors and assigns, to the invention, the application, and any Letters Patent

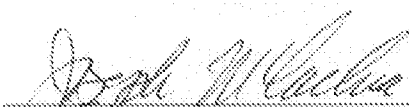

granted for the invention in the United States and throughout the world. In addition, Assignors do hereby make, constitute and appoint Assignee, or any officer or agent of Assignee, as Assignor's true and lawful attorney-in-fact, with power of substitution, to enforce every such contract, permit, license, claim, demand or right, with respect to the Assigned Patent, and to do any and all things necessary to be done as fully and effectually as Assignor might or could do, and hereby ratifies all that said attorney-in-fact shall lawfully do or cause to be done by virtue hereof. This power of attorney shall be irrevocable.

Assignors represent and warrant that they have not granted and will not grant to others any rights inconsistent with the rights granted by this Assignment. Assignors further represent and warrant that they do not know of any improvements to the invention, other than what has been disclosed in the application and/or has been communicated to the patent attorney(s) prosecuting said application. Assignors have not filed any other patents relating in any way to the Assigned Patent and agree not to do so other than in their role as an employee of the Assignee.

Assignors authorize and request the Commissioner of Patents and Trademarks of the United States and of all foreign countries to issue any Letters Patent granted for the invention, whether on the application or on any subsequently filed division, continuation, continuation-in-part, or reissue application, to Assignee, or his successors or assigns, as the assignee of the entire interest in the invention.

IN WITNESS WHEREOF, Assignors have executed this Assignment.
