ASSIGNMENT

As the Inventor identified below, I have made certain new and useful improvements in an invention ("Invention"), as set forth in an application for United States Patent executed by me and bearing the following title and for which the Assignee under this agreement or the attorney of record is hereby authorized to insert the serial number and filing date when available:

Title: MULTI-LAYER ROTATIONALLY MOLDED LOW PERMEATION
VESSELS AND METHOD FOR MANUFACTURE THEREOF

Serial Number: 11/999,756

Filing Date: December 7, 2007

For good and valuable consideration, I do hereby sell, assign, and transfer to the Centro, Inc. (hereinafter "ASSIGNEE"), an Iowa corporation, located and doing business in North Liberty, Iowa, and to its legal representatives, successors and assigns, my entire right, title and interest in and to the Invention and to all United States and foreign patent applications, any of whose claims cover all or part of the Invention, together with all patents resulting from such applications. Assignee shall hold such right, title and interest as fully and completely as they would have been held by me had this assignment not been made.

I agree, upon Assignee's request, to execute or assent to such United States and foreign patent applications and to execute all separate assignments and other legal documents that Assignee may find necessary or desirable in its exercise of the right, title and interest assigned above. I also agree to communicate to Assignee any facts relating to the Invention or relating to any of the patent applications or patents contemplated above that may be useful to Assignee and to testify as to such facts in any interferences or in litigation, if requested to do so. I shall do all these things without additional compensation, but at no expense to me.

I hereby request the Commissioner of Patents to issue to Assignee, as the owner of my entire right, title and interest therein, any Letters Patent of the United States that may be issued for the Invention.
