ASSIGNMENT OF PATENTS

THIS ASSIGNMENT is made the 11th day of March, 2011.

BETWEEN:

- (1) NORTEL NETWORKS LIMITED, a corporation duly incorporated under the laws of Canada, having its executive offices at 5945 Airport Road, Suite 360, Mississauga Ontario Canada (the "Assignor"); and
- (2) ERICSSON AB, a corporation duly incorporated under the laws of Sweden having its executive offices at Torshamnsgatan 23, Kista, Stockholm, Sweden, on its behalf and on behalf of its Affiliates (the "Assignee") (collectively, the "Parties" and each a "Party").

WHEREAS, the Assignor and certain of its affiliates and Telefonaktiebolaget L M Ericsson (publ), an affiliate of the Assignee, are parties to an Asset Sale Agreement dated September 24, 2010 (the "ASA");

WHEREAS, pursuant to the ASA, Assignor agreed to assign to Assignee its right, title and interest to the Transferred Patents, including, without limitation, the patents and patent applications listed in the Schedule attached hereto (all such patents and patent applications referred to collectively as the "Patents"); and

WHEREAS, the Parties wish to execute this Assignment for the purposes of transferring the Patents pursuant to the ASA and filing this Assignment with the United States Patent and Trademark Office to effectuate the assignment and transfer the Patents to Assignee.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the Assignor and the Assignee each hereby agree as follows:

1. All capitalized terms not defined herein shall have their respective meanings defined in the ASA.
2. Assignment. Assignor hereby sells, assigns, conveys, transfers and delivers to Assignee and its successors and assigns, and Assignee hereby purchases from Assignor and accepts the sale, assignment, conveyance, transfer and delivery of, all of Assignor's right, title and interest in, to and under the Patents, together with all claims against Third Parties for infringement, misappropriation or other violation of any Law with respect to any of the Patents, whether for any past, present or future infringement, misappropriation or other violation of the Patents.
3. Ownership. Assignor hereby acknowledges and agrees that from and after the date hereof, Assignee shall be the exclusive owner of all of Assignor's right, title and interest in, to and under the Patents.
4. Further Assurances. Assignor shall take all actions and execute and deliver such other documents that Assignee may reasonably request to effect the terms of this Assignment and to perfect Assignee's title in, to and under the Patents.

5. No Warranties. Except as expressly provided in the ASA, Assignor makes no warranties, express or implied, with respect to the Patents.

6. Recordation. The Parties agree that Assignee may record this Assignment in the United States Patent and Trademark Office.

7. Miscellaneous. This Assignment shall be governed by, and construed in accordance with, the laws of the State of New York applicable to contracts made and to be performed entirely in such state without regard to principles of conflicts or choice of laws or any other law that would make the laws of any other jurisdiction other than the State of New York applicable hereto. This Assignment may not be supplemented, altered or modified in any manner except by a writing signed by the Parties hereto. The failure of any Party to enforce any terms or provisions of this Assignment shall not waive any of its rights under such terms or provisions. In the event of a conflict between the provisions herein and the terms and conditions of the ASA, the terms and conditions of the ASA shall govern. This Assignment shall bind and inure to the benefit of the respective Parties and their assigns, transferees and successors. This Assignment and any amendments hereto may be executed in one or more counterparts, each of which shall be deemed an original but all of which together will constitute one and the same instrument.
