PATENT ASSIGNMENT

THIS PATENT ASSIGNMENT ("Assignment") is made effective by IXYS CH GMBH a company organized and existing under the laws of the country of Switzerland ("IXYS") and UEI Cayman Inc., a company organized under the laws of the Cayman Islands ("UEI") as of March 21, 2011 (the "Effective Date").

WHEREAS, IXYS is the sole and exclusive owner of the inventions and applications identified by the U.S. patent and patent application numbers as listed on the attached Schedule A (hereafter "IXYS PROPERTIES"); and

WHEREAS, UEI is the sole and exclusive owner of the inventions and applications identified by the U.S. patent and patent application numbers as listed on the attached Schedule B (hereafter "UEI PROPERTIES"); and

WHEREAS, IXYS is desirous of obtaining the entire right, title and interest in, to and under UEI PROPERTIES, including the right to bring an action and recover damages for past infringements, if any; and

WHEREAS, UEI is desirous of obtaining the entire right, title and interest in, to and under IXYS PROPERTIES, including the right to bring an action and recover damages for past infringements, if any.

NOW, THEREFORE, the parties, intending to be legally bound, hereby agree as follows:

1. Assignments.

1.1 Assignment by IXYS. In consideration for the UEI PROPERTIES and other good and valuable consideration, the receipt of which is hereby acknowledged, IXYS by these presents does hereby sell, assign, transfer and set over (or hereby causes the sale, assignment, transfer and set over of), unto UEI, its successors, legal representatives and assigns, IXYS's entire right, title and interest in, to and under the inventions and the application(s) set forth on Schedule A and all divisions, renewals, continuations, and continuations-in-part thereof, and all patents of the United States which may be granted thereon and all reissues and extensions thereof; and all applications for industrial property protection, including, without limitation, all

applications for patents, utility models, and designs which may be filed for such inventions in any country or countries foreign to the United States, together with the right to file such applications and the right to claim for the same the priority rights derived from said United States application under the patent laws of the United States, the International Convention for the Protection of Industrial Property, or any other international agreement or the domestic laws of the country in which any such application is filed, as may be applicable; and all forms of industrial property protection, including, without limitation, patents, utility models, inventors' certificates and designs which may be granted for such inventions in any country or countries foreign to the United States and all extensions, renewals and reissues thereof.

1.2 Assignment by UEL. In consideration for the IXYS PROPERTIES and other good and valuable consideration, the receipt of which is hereby acknowledged, UEL by these presents does hereby sell, assign, transfer and set over (or hereby causes the sale, assignment, transfer and set over of), unto IXYS, its successors, legal representatives and assigns, UEL's entire right, title and interest in, to and under the inventions and the application(s) set forth in Schedule B and all divisions, renewals, continuations, and continuations-in-part thereof, and all patents of the United States which may be granted thereon and all reissues and extensions thereof; and all applications for industrial property protection, including, without limitation, all applications for patents, utility models, and designs which may be filed for such inventions in any country or countries foreign to the United States, together with the right to file such applications and the right to claim for the same the priority rights derived from said United States application under the patent laws of the United States, the International Convention for the Protection of Industrial Property, or any other international agreement or the domestic laws of the country in which any such application is filed, as may be applicable; and all forms of industrial property protection, including, without limitation, patents, utility models, inventors' certificates and designs which may be granted for such inventions in any country or countries foreign to the United States and all extensions, renewals and reissues thereof.

2. Authorization and Warranties.

2.1 Authorization of IXYS. IXYS authorizes and requests the Commissioner for Patents and any Official of any country or countries foreign to the United States,

whose duty it is to issue patents or other evidence or forms of intellectual property protection on applications as aforesaid, to issue the same to UEI, its successors, legal representatives and assigns, in accordance with the terms of this Assignment.

2.2 Authorization of UEI. UEI authorizes and requests the Commissioner for Patents and any Official of any country or countries foreign to the United States, whose duty it is to issue patents or other evidence or forms of intellectual property protection on applications as aforesaid, to issue the same to IXYS, its successors, legal representatives and assigns, in accordance with the terms of this Assignment.

2.3 Warranty of IXYS. IXYS represents and warrants that it has full right to convey the entire interest assigned in this Assignment, and that it has not executed any agreement in conflict herewith.

2.4 Warranty of UEI. UEI represents and warrants that it has full right to convey the entire interest assigned in this Assignment, and that it has not executed any agreement in conflict herewith.
