**ASSIGNMENT**

THIS ASSIGNMENT is by Jamsheed Bugwadia, Yun Freund and Paul Zeldin (the "Assignors"), whose mailing addresses are 564 Weybridge Drive, San Jose, CA 95123, 10401 Plum Tree Lane, Cupertino, CA 95014, and 614 University Avenue, Los Alto, CA 94022 respectively. We Assignors have invented one or more certain inventions (the "Invention(s)") described in a United States Patent Application entitled **AUTOMATED POLICY-BASED NETWORK DEVICE CONFIGURATION AND NETWORK DEPLOYMENT** (the "Application")  filed on May 19, 2006, as Application No. 11/437,582. We Assignors authorize the Assignee, identified below, or its representatives to insert the application number of the Application when known.

Trapeze Networks, Inc. a corporation of the State of Delaware having a place of business at 5753 West Las Positas Boulevard, Pleasanton, California 94588 ("Assignee"), desires to acquire the entire right, title and interest in and to the Invention(s) and the Application, and in and to any patents (collectively, "Patents") that may be granted for the Invention(s) in the United States or in any foreign countries.

For valuable consideration, the receipt and sufficiency of which Assignor acknowledges, Assignor hereby sells, assigns, and transfers to Assignee, its successors, legal representatives and assigns, the entire right, title and interest in and to: the Invention(s), the Application, and any Patents; any divisions, continuations, and continuations-in-part of the Application and any other application claiming priority rights from the Application; any reissues, reexaminations, or extensions of any and all Patents; the right to file foreign applications directly in the name of Assignee; and the right to claim priority rights deriving from the Application (collectively, the "Rights"). Assignor warrants that he or she is the sole owner of the Rights, and that the Rights are unencumbered. Assignor also agrees to not sign any writing or do any act conflicting with this assignment, and, without further compensation, sign all documents and do such additional acts as Assignee deems necessary or desirable to: perfect Assignee's enjoyment of the Rights; prepare and prosecute the Application or any other applications for Patents; conduct proceedings regarding the Rights, including any litigation or interference proceedings; assist and cooperate in enforcing the Rights; or perfect or defend title to the Rights. Assignor requests the Commissioner of Patents to issue any

Patent of the United States that may be issued on the Invention(s) to Assignee. This Assignment may be executed in counterparts.
