ASSIGNMENT

Inventor(s): Michael A. Reinpoldt and Willem H. Reinpoldt, III

Title: METHOD AND SYSTEM OF PROGRESSIVE ANALYSIS FOR ASSESSMENT OF OCCLUDED DATA AND REDUNDANT ANALYSIS FOR CONFIDENCE EFFICACY OF NO-OCCLUDED DATA

Whereas, we, Lucas George Laskaris and Willem H. Reinpoldt, of Tampa, Florida, have invented certain new and useful improvements as described in an application entitled METHOD AND SYSTEM OF PROGRESSIVE ANALYSIS FOR ASSESSMENT OF OCCLUDED DATA AND REDUNDANT ANALYSIS FOR CONFIDENCE EFFICACY OF NO-OCCLUDED DATA for Letters Patent of the United States, the application having been executed on even dates herewith, and/or being identifiable in the United States Patent and Trademark Office by Application No. 13/014,856, filed January 27, 2011; and

WHEREAS, Thermal Matrix USA, Inc., a corporation organized and existing under the laws of the State of Florida, and having offices at 4400 118th Ave. North, Suite 303, Clearwater, Florida, ("Assignee") is desirous of acquiring the entire right, title and interest in and to the invention, the application, and any all Letters Patent or similar legal protection, foreign or domestic, to be obtained therefor;

NOW, THEREFORE, for good and valuable consideration, the receipt and adequacy of which is hereby acknowledged, we transfer to Assignee, its successors and assigns, our entire right, title and interest in and to the invention, the above-identified application, corresponding domestic and foreign applications, all Letters Patent or similar legal protection issuing thereon, and all rights and benefits under any applicable treaty or convention; and we authorize the Commissioner of Patents and Trademarks of the United States or foreign equivalent thereof to issue the Letters Patent or similar legal protection to the Assignee.

We authorize the Assignee, its successors and assigns, or anyone it may properly designate, to apply for Letters Patent or similar legal protection, in its own name if desired, in any and all foreign countries.

We represent to the Assignee, its successors and assigns, that we have not and shall not execute any writing or do any act whatsoever conflicting with this Assignment. We, our executors or administrators, will at any time upon request, without additional consideration, but at the expense of the Assignee, its successors and assigns, execute such additional writings and do such additional acts as the Assignee, its successors and assigns, may deem desirable to perfect its enjoyment of this grant, and render all assistance in making application for and obtaining, maintaining, and enforcing the Letters of Patent or similar legal protection on the invention in any and all countries.
