**GRANT OF SECURITY INTEREST
IN UNITED STATES PATENTS**

April 4, 2011

WHEREAS, Raynor Mfg. Co., an Illinois corporation ("Raynor"), having its chief executive office at 1101 East River Road, Dixon, Illinois, and Raynor Canada Corp., a Nova Scotia unlimited company ("Raynor Canada", and together with Raynor, "Grantors"), having its chief executive office at 5100 Timberlea Blvd., Mississauga, Ontario, Canada, are the owners of all right, title and interest in and to certain United States patents and patent applications;

WHEREAS, Associated Bank, National Association, having its principal offices at 1200 Hansen Road, Green Bay, WI 54304 ("Associated Bank") desires to acquire a security interest in all of each Grantor's right, title and interest in and to such Grantor's patents and patent applications and other collateral as described below; and

WHEREAS, each Grantor is willing to grant to Associated Bank a security interest in and lien upon all of such Grantor's right, title and interest in and to such Grantor's patents and patent applications and other collateral, as more fully described below.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, and subject to the terms and conditions of (i) the Security Agreement dated as of the date hereof, between Raynor and Associated Bank and (ii) the General Security Agreement dated as of the date hereof, between Raynor Canada and Associated Bank (as each may be amended, restated, supplemented or otherwise modified from time to time, collectively, the "Security Agreement"), each Grantor hereby grants Associated Bank a continuing security interest in all of such Grantor's right, title and interest in and to the following, whether now or hereafter existing, arising or acquired: (i) United States patents and patent applications (the "Patents"), including without limitation those set forth on Schedule A, (ii) all reissues, extensions or renewals of any Patents, (iii) all causes of action arising prior to, on or after the date hereof for infringement of any Patent and (iv) all proceeds of, and rights associated with, the foregoing.

THIS SECURITY INTEREST (this "Agreement") is made to secure the satisfactory performance and payment of all present and future obligations of the Grantors and certain affiliates of the Grantors to Associated Bank and its successors and assigns. Upon request of the Grantors when all obligations have been finally paid in full and all commitments of Associated Bank have been terminated, Associated Bank shall execute, acknowledge and deliver to the Grantors an instrument in writing releasing the security interest acquired under this Agreement; provided, that if at any time any part of any payment theretofore applied by Associated Bank to any such obligation is or must be rescinded or returned by Associated Bank for any reason whatsoever (including without limitation the insolvency, bankruptcy or reorganization of any Grantor), such obligations shall, for the purposes of this Agreement, to the extent that such payment is or must be rescinded or returned, be deemed to have continued in existence, notwithstanding such application by Associated Bank, and this Agreement and the security interest granted herein shall continue to be effective or be reinstated, as the case may be,

as to such obligations, all as though such application by Associated Bank had not been made and such release had not been executed.

This security interest has been made in conjunction with the security interest granted to Associated Bank under the Security Agreement. The rights and remedies of Associated Bank with respect to the security interest granted herein are without prejudice to, and are in addition to those set forth in, the Security Agreement, the terms and provisions of which are incorporated herein by reference. If any provision of this Agreement conflicts with the Security Agreement, the provisions of the Security Agreement shall govern.
