ASSIGNMENT

1. I, Dale J. Lambert, 804 Fawn Drive, Mandeville, Louisiana 70448 U.S.A., have made a certain new and useful invention relating to

for which I have executed an application for Letters Patent of the United States of America. The application is identified in the United States Patent and Trademark Office as Serial No. 12/783,374, filing date May 19, 2010.

2. ION Geophysical Corporation of 2105 CityWest Boulevard, Suite 400, Houston, Texas 77042, U.S.A., the Assignee, wants to acquire the entire interest in the invention, the patent application, and any Letters Patent that issue.
3. For and in consideration of One Dollar and other good and valuable considerations paid to me:
 - a. I assign to the Assignee my entire interest in the invention, the patent application, the Letters Patent that may issue from the patent application, and any and all divisions, continuations, continuations-in-part, reexaminations, reissues, or extensions of the patent application or Letters Patent and any prior patent applications on the invention whose priority the patent application claims, as well as all rights of priority resulting from the filing of the application.
 - b. I authorize and request the Commissioner of Patents and Trademarks to issue the Letters Patent to the Assignee in agreement with the terms of this assignment.
 - c. I convey to the Assignee the right to apply in its own behalf for protection of the invention in countries foreign to the United States and to claim under the International Convention for the Protection of Industrial Property (the Paris Convention), the Patent Cooperation Treaty, and any other international arrangements for any foreign patent application, the date of the United States application (or other patent applications, if there be any) in priority to other patent applications.
 - d. I agree with the Assignee that I will not execute any writing or do any act that conflicts with this assignment, and that I will, upon request and without additional consideration, but at the expense of the Assignee, execute any additional assignments and other writings and do any additional acts that the Assignee may consider necessary or desirable to perfect the Assignee's enjoyment of this grant, and will give all necessary assistance in applying for and obtaining original, divisional, renewal, reissued, reexamined, or extended Letters of Patent of the United States and of any and all foreign countries for the invention, in enforcing any rights accruing from the patent applications or patents by executing preliminary statements and other affidavits and declarations.
