CONFIRMATION OF PATENT ASSIGNMENT

THIS CONFIRMATION OF PATENT ASSIGNMENT ("*Assignment*"), dated as of April 4, 2011, is entered into by and between Bruce Barrie and Robert Barrie (collectively "*Assignors*"), for the benefit of Field Logic, Inc., a Minnesota corporation ("*Assignee*").

WHEREAS, Assignors previously assigned to Barrie Archery, LLC, all of Assignors' right, title and interest in all inventions, patents, provisional patent applications, patent applications, patent disclosures and related patent rights (the "*Patents*"), and set forth on Exhibit A attached hereto, and Barrie Archery, LLC subsequently assigned the Patents to Assignee.

WHEREAS, Assignors desire to confirm the sale, assignment, conveyance and transfer of the Patents to the Assignee.

NOW, THEREFORE, in consideration of good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereby agree as follows:

1. Assignment of Patents by Assignors. Assignors hereby sell, assign, convey, set over and transfer to Assignee, its successors and assigns all of Assignors' entire right, title and interest in and to the Patents, and any and all applications for patent (including without limitation provisional patent applications) and patents issuing therefrom in any and all countries of the world, including all divisions, continuations, re-examinations, or reissues, and extensions thereof, and all rights of priority resulting from the filing in the United States of the respective applications for said Patents identified above, the same to be held and enjoyed by Assignee for its own use and enjoyment, and for the use and enjoyment of its successors, assigns and other legal representatives, to the end of the term or terms for which the Patents are or may be granted or reissued as fully and entirely as the same would have been held and enjoyed by the Assignors if this Assignment had not been made; together with all claims for damages by reason of past infringements of the Patents including without limitation provisional rights thereto with the right to sue for and collect the same for its own use and benefit, and for the use and on behalf of its successors, assigns and other legal representatives.

2. Other. Assignors agree that, upon Assignee's request, we will sign all lawful papers in connection with all divisional, continuing, re-examining and reissue applications, make all rightful oaths and generally do everything reasonably requested by Assignee to aid Assignee, its successors, assigns and nominees to obtain, maintain, and enforce patent protection in any country for the inventions set forth in the Patents.

3. Binding. This assignment and agreement shall be binding upon our heirs and legal representatives.
