## ASSIGNMENT

WHEREAS, ForSight Labs LLC, a California limited liability company, hereinafter referred to as "Assignor," is the owner of all rights in certain new and useful improvements as described and set forth in the applications specified on the attached Schedule A (hereinafter "the Applications") for United States Letters Patent; and

WHEREAS, ForSight Newco II, Inc., a Delaware corporation, hereinafter referred to as "Assignee," wants to acquire an interest in the inventions of the Applications and in any "Letters Patent and Registrations" that may be granted on the same or on any patent application claiming priority from the same;

For good and valuable consideration, receipt of which is hereby acknowledged by Assignor, Assignor has assigned, and by these presents does assign to Assignee all right, title and interest in and to the inventions and the Applications and to all foreign counterparts (including patent, utility model and industrial designs), and in and to any Letters Patent and Registrations which may hereafter be granted on the same, or on any patent application claiming priority from the same, in the United States and all countries throughout the world, and to claim the priority from the applications as provided by the Paris Convention. The right, title and interest is to be held and enjoyed by Assignee and Assignee's successors and assigns as fully and exclusively as it would have been held and enjoyed by Assignor had this assignment not been made, for the full term of any Letters Patent and Registrations which may be granted thereon, or of any division, renewal, continuation in whole or in part, substitution, conversion, reissue, prolongation or extension thereof.

Assignor further agrees that Assignor will, without charge to Assignee, but at Assignee's expense, (a) cooperate with Assignee in the prosecution of the Applications and foreign counterparts thereof, (b) execute, verify, acknowledge and deliver all such further papers and instruments of transfer and (c) perform such other acts as Assignee lawfully may request to obtain or maintain Letters Patent and Registrations for the invention and improvements in any and all countries, and to vest title thereto in Assignee, or Assignee's successors and assigns.

IN TESTIMONY WHEREOF, this Assignment is executed this 18<sup>th</sup> day of October, 2007.
