CONFIRMATORY ASSIGNMENT OF APPLICATION RIGHTS

An assignment was recorded in the United States Patent and Trademark Office after the filing date of U.S. Application No. **11/614,259** that did not include the application number, and this assignment is being executed and recorded to confirm that assignment. For valuable consideration already received, the receipt and sufficiency of which is hereby acknowledged, on the date indicated by my signature below, **Dean A. Stoneback**, whose residence is indicated beneath the signature below, (the "Assignor"), to ensure that the assignment dated **December 20, 2006** and recorded by the United States Patent and Trademark Office on **March 2, 2009** at Reel/Frame **022328/0929**, is completed, hereby acknowledge that I have sold, assigned and transferred, and do hereby sell, assign and transfer, unto General Instrument Corporation, a corporation of the State of Delaware, having its principal office in Horsham, State of Pennsylvania, United States of America, and its successors, assigns, and legal representatives, (the "Assignee"), the entire right, title and interest in and to certain inventions entitled "**Parallel Split Powering**" as described, illustrated in Motorola Disclosure ID. **BCS04296** and as described, illustrated and claimed in the following applications:

1.) U.S. Application No. 11/614,259, filed December 21, 2006 entitled "Parallel Split Powering";

I hereby also sell, assign and transfer unto the Assignee the entire right, title and interest in and to other applications for Letters Patent on the inventions referenced herein, including any applications specifically referenced herein, and all rights, title and interest in and to all applications for Letters Patent in respect of the invention filed under any and all international conventions and treaties together with the entire right, title and interest in and to Letters Patent which may be issued upon the applications, and upon any divisions, extensions, continuations, reissues and/or re-examinations thereof.

I further authorize Assignee to apply for Letters Patent directly in its own name where applicable, and to claim priority of the filing date of the application for Letters Patent filed under the laws of the applicable country and under the provisions of any and all international conventions and treaties.

I hereby authorize and request the Commissioner of Patents of the United States of America to issue any Letters Patents upon the aforesaid application, divisions, extensions, continuations, reissues or re-examinations, to Assignee, for the sole use and benefit of Assignee, to the full end of the term for which Letters Patent may be granted, the same as they would have been held and enjoyed by me had this assignment not been made, and I hereby authorize and request the equivalent authorities in foreign countries to issue the patents of their respective countries to Assignee.

I agree that, when requested, I will, without charge to Assignee but at its expense, sign all papers, take all rightful oaths, and do all acts which may be necessary, desirable or convenient for securing, maintaining and enforcing patents for the inventions in any and all countries and for vesting title thereto in Assignee.

I covenant with Assignee that the interest and property hereby conveyed is free from all prior assignment, grant, mortgage, license or other encumbrance.

By: Dean A. Stoneback
