**WHEREAS**, Girvan Institute of Technology, a California non-profit public-benefit corporation whose address is 200 Continental Blvd, Suite 301, El Segundo, CA 90245, ("Assignor") is the owner of all the right, title, and interest in and to certain inventions or discoveries (or both) set forth in the following Letters Patent:

U.S. Patent No. 6,431,470, entitled "Low-Noise Air Nozzle" and issued Aug. 13, 2002; and

**NOW, THEREFORE**, for valuable consideration furnished by Assignee to Assignor, the receipt and sufficiency of which Assignor hereby acknowledges, Assignor hereby, without reservation:

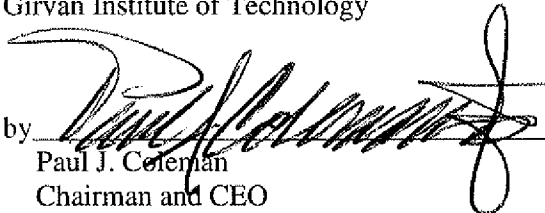

1. Assigns, transfers, and conveys to Assignee Assignor's entire right, title, and interest in and to (a) said inventions and discoveries, (b) know-how related to the subject matter of said inventions and discoveries, (c) said Letters Patent, (d) any and all other applications for Letters Patent setting forth said inventions and discoveries based in whole or in part upon said Letters Patent, including all provisional, nonprovisional, divisional, renewal, substitute, continuation, continuation-in-part, reissue, Convention applications, International applications, national stages, regional stages, reexaminations, and extensions of Letters Patent, (e) any Letters Patent issuing from any such applications and the right to sue for past infringement thereof and for provisional rights under 35 U.S.C. § 154(d) thereof, and (f) every priority right that is or may be predicated upon or arise from said Letters Patent;
2. Authorizes Assignee to file patent applications in any or all countries on any or all of said inventions and discoveries in its name or in the name of Assignee or otherwise as Assignee may deem advisable, under the Paris Convention for the Protection of Industrial Property, the Patent Cooperation Treaty, or otherwise;

5. Binds its heirs, legal representatives and assigns, as well as itself, to do, upon Assignee's request and at Assignee's expense, but without additional consideration to them, all acts reasonably serving to assure that the said inventions and discoveries, and the said Letters Patent shall be held and enjoyed by Assignee as fully and entirely as the same could have been held and

enjoyed by itself, its heirs, legal representatives, and assigns if this assignment had not been made; and particularly to execute and deliver to Assignee all lawful application documents including petitions, specifications, declarations, and oaths, and all assignments, disclaimers, and lawful affidavits in form and substance as may be requested by Assignee; to communicate to Assignee all facts known to it relating to said inventions and discoveries or the history thereof; and to furnish Assignee with any and all documents, photographs, models, samples, and other physical exhibits in its control or in the control of its heirs, legal representatives or assigns which may be useful for establishing the facts of conceptions, disclosures, and reduction to practice of said inventions and discoveries.
