**ASSIGNMENT**

Whereas, I, **Darrin Schmuckle**, a citizen of the United States, hereinafter referred to as "Assignor," have invented an invention entitled "STEP LIGHT FIXTURE," for which an application for Letters Patent of the United States of America is filed herewith, and for which a U.S. Application was filed on June 1, 2010 and assigned Serial No. 12/791,602; and

Whereas, Hunter Industries Incorporated, with a principal place of business at 1940 Diamond Street, San Marcos, CA 92078, hereinafter referred to as "Assignee," is desirous of acquiring the exclusive right, title and interest in the invention, the application, and any patents and equivalent legal protections that are obtained thereon in the United States and in any foreign countries.

Therefore, for good and valuable consideration, the receipt of which is hereby acknowledged, Assignor does hereby assign and transfer to Assignee, its successors and assigns, the full and exclusive right, title and interest in the invention, the application, and any patents and equivalent legal protections that are obtained thereon in the United States and in any foreign countries, including any continuations, divisions, renewals, substitutes, reissues or legal equivalents thereof, for the full term(s) for which the same is granted, including all priority rights under the International Convention.

Assignor, in accordance with this Assignment, hereby authorizes and requests the United States Commissioner for Patents, and officials of foreign countries whose duty it is to issue patents or legal equivalents thereof, to issue any patents obtained on the invention to Assignee, its successors and assigns.

For the same consideration, Assignor covenants that no assignment, sale, agreement or encumbrance has been or will be made or entered into that would conflict with this Assignment.

AND, for the same consideration, Assignor further covenants that Assignee will, upon its request, be provided promptly with all pertinent facts and documents relating to this invention and any applications, patents or legal equivalents directed thereto that are known and accessible to Assignors, and that Assignor will testify in any interference or litigation related thereto.

AND, for the same consideration, Assignor further covenants that he will promptly execute and deliver to Assignee or its legal representative any documents, instruments or affidavits required to apply for, obtain, maintain, issue, perfect legal title and enforce this invention and any applications, patents or legal equivalents directed thereto in the United States or in any foreign country.
