NUNC PRO TUNC ASSIGNMENT OF U.S. AND FOREIGN RIGHTS IN INVENTION

The undersigned assignors, Richard M. Deeley, Yatim Mundkur and Woobin Lee (together, the "Assignors") have invented and wish to assign inventions and improvements (the "Invention(s)") disclosed in the patent applications and patents filed in the United States Patent and Trademark Office, and/or other governmental offices that are identified on the attached Exhibit A (the "Patent(s)"). Assignee desires to acquire the entire right, title and interest in and to the assets and rights conveyed, assigned, and transferred pursuant to this Assignment of Patent Rights, made effective as of December 21, 2000 (this "Assignment").

Therefore, in consideration of the payment of the sum of One United States Dollar (\$1.00) or its equivalent, the receipt of which is hereby acknowledged, and for other good and valuable consideration, we, the Assignors hereby sell, assign, and transfer to Equator Technologies, Inc., a Delaware corporation ("Assignee") and the successors, assigns, and legal representatives of the Assignee, the entire right, title, and interest in the United States and in all foreign countries, including all rights to claim priority, in and to any and all improvements which are disclosed in the Inventions and Patents identified on Exhibit A and in and to all letters patent to be obtained from said Inventions and Patents listed on Exhibit A and any continuation, division, renewal, and substitute thereof, and as to letters patent from any reissue and re-examination thereof.

In addition, Assignors hereby convey, assign, and transfer all right, title and interest in and to all causes of action, remedies and other enforcement rights related to the Invention(s), and the Patent(s), including, without limitation, the right to sue for past, present or future infringement, misappropriation or violation of rights related to the Invention(s), and/or the Patent(s); and, all rights to collect royalties and other payments under or on account of any of the Invention(s), and the Patent(s).

Assignors hereby covenant that no assignment, sale, agreement, or encumbrance has been or will be made or entered into which would conflict with this assignment.

ASSIGNMENT OF PATENT RIGHTS

The undersigned assignors, Richard M. Deeley, Yatin Mundkur and Woobin Lee (together, the "Assignors") have invented and wish to assign inventions and improvements (the "Invention(s)") disclosed in the patent applications and patents filed in the United States Patent and Trademark Office, and/or other governmental offices that are identified on the attached Exhibit A. Assignee desires to acquire the entire right, title and interest in and to the assets and rights conveyed, assigned, and transferred pursuant to this Assignment of Patent Rights, made effective as of December 21, 2000 (this "Assignment").

Now, therefore, for valuable consideration, the receipt and sufficiency of which the Assignor acknowledges, Assignors hereby irrevocably and unconditionally convey, assign, and transfer to Equator Technologies, Inc., a Delaware corporation ("Assignee"), Assignors' full extent of the right, title, and interest in and to any and all of the following (the "Rights"):

- The Invention(s) and all rights in any country of the world with respect to the Invention(s);
- The patents listed on Exhibit A and all letters patents, United States patents or other governmental grants or issuances that may be granted or issued with respect to the invention(s) (the "Patent(s)");
- The patent applications listed on Exhibit A and all divisions, continuations (in whole or in part), substitutions, renewals, and other applications claiming priority rights directly or indirectly from the Patents and/or any such applications (the "Application(s)");
- All reissues, requests for continuing examinations, reexaminations, extensions or registrations of the Application(s) and/or the Patent(s);
- All non-United States patents, patent applications, and counterparts with respect to the Invention(s), the Application(s), and the Patent(s) including, without limitation, certificates of invention, utility models, industrial design protection, design patent protection, and other governmental grants or issuances, and including the right to file foreign applications directly in the name of Assignee;
- The right to claim priority rights deriving from the Patent(s) and/or Application(s) and for Assignee to otherwise avail itself of the provisions of the international conventions governing the protection of inventions;
- All causes of action, remedies and other enforcement rights related to the Application(s), the Invention(s), and the Patent(s), including, without limitation, the right to sue for past, present or future infringement, misappropriation or violation of rights related to the Application(s), the Invention(s), and/or the Patent(s);
- All rights to collect royalties and other payments under or on account of any of the Application(s), the Invention(s), and the Patent(s);
- Any and all other rights and interests arising out of, in connection with, or in relation to the Application(s), the Invention(s), and the Patent(s); and
- All documents related to the conception, diligence and reduction to practice of the Invention(s) and all domestic and international patent filing documents.

Assignors will not execute any writing or do any act conflicting with this Assignment, and, without further compensation, will execute all documents and do such additional acts as Assignee deems necessary or desirable to: perfect enjoyment of the Rights; conduct proceedings regarding the Rights, including any litigation or interference proceedings; or perfect or defend title to the Rights. Assignors will render any requested assistance in making application for and obtaining original,

divisional, continuing (in whole or in part), reissued or extended letters patent on the invention(s) throughout the world. Assignors request the respective patent office or governmental agency in each jurisdiction to grant or issue any and all letters patents, certificates of invention, utility models or other governmental grants or issuances that may be granted upon any of the Rights in the name of the Assignee, as the assignee to the entire interest therein.

A copy of this Assignment will be deemed a full legal and formal equivalent of any document that may be required in any country as proof of the right of Assignee to apply for patent or other protection for any invention(s) and to claim the benefit of the right of priority thereto. Assignors grant to Assignee the right, power and authority to insert in this Assignment any further information or identification that may be necessary or desirable to comply with the applicable rules and procedures for recordation of this Assignment, or perfecting its benefit, throughout the world.

The terms and conditions of this Assignment will inure to the benefit of Assignee, its successors or assigns, and anyone properly designated by them and will be binding upon Assignor, its successors or assigns, and anyone properly designated by them. This Assignment may be executed in counterparts.
