**ASSIGNMENT OF PATENTS**  
**PATENTS ASSIGNMENT**

**WHEREAS**, Simulation Consulting, LLC, a Georgia limited liability company ("Assignor"), owns, by assignment or otherwise, all right, title, and interest in the patents, including, but not limited to, those specifically set forth in Schedule 1, and any invention claimed therein ("Patents");

**WHEREAS**, XenGenn, LLC or its designee, SimCraft Corporation ("Assignee"), desires to own Assignor's entire right, title, and interest in and to the Patents, in all countries throughout the world, and in and to any invention claimed therein; and

**WHEREAS**, pursuant to Article 2 of the Asset Purchase Agreement, dated 9/11/08, 2008, between Assignor and Assignee, whereby Assignor agreed to assign all of its right, title, and interest in any intellectual property it acquires and Assignee agreed to acquire such intellectual property and the rights therein, the parties wish to further carry out the terms of the Asset Purchase Agreement as set forth herein;

**NOW THEREFORE**, be it known that, in exchange for payment of One Dollar (\$1.00) and for other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, Assignor hereby irrevocably assigns, transfers, conveys, grants and sets over to Assignee, its lawful successors and assigns, Assignor's entire right, title, and interest in and to the Patents, the inventions claimed therein, any other patent applications directed to the inventions, and all current or future patents that may be granted thereon, including, without limitation, any and all divisionals, continuations, continuations-in-part, reissues, reexaminations, substitutes, any extensions thereof, and all foreign equivalents, continuations, continuations-in-part, divisionals and counterparts of the foregoing and all rights to claim priority on the basis of such application, and all applications for patents that may be filed for the inventions in any foreign country and all patents that may be granted on the invention in any foreign country, including, without limitation, and any and all divisionals, continuations, continuations-in-part, reissues, reexaminations, substitutes, any extensions thereof;

**AND**, Assignor **HEREBY** authorizes and requests the Commissioner of Patents and Trademarks of the United States and any official of any foreign country whose duty it is to issue, assign, and/or record as assignee for all patents and applications as described above for the inventions to Assignee, its successors and assigns, in accordance with the terms of this Assignment;

**AND**, Assignor **HEREBY** further agrees that, from and after the date of this Assignment, Assignee has succeeded to all of Assignor's right, title, interest and standing to receive all rights and benefits pertaining to the Patents, institute and prosecute all suits and proceedings, take all actions that Assignee, in its sole discretion, may deem necessary or proper to collect, assert, or enforce any claim, right, title or interest of any kind under any and all of the Patents, including, without limitation, the right to sue for all past, present and future infringements or other violations of any rights relating thereto, to settle, defend, compromise and retain proceeds from

any actions, suits, or proceedings relating to the transferred and assigned rights, title, interest, and benefits, and do all other such acts and things in relation thereto as Assignee, in its sole discretion, deems advisable;

**AND, Assignor HEREBY** relinquishes exclusivity to Assignee all of Assignor's right, title and interest in and to all accrued and future causes of action for injunctive relief, damages, lost profits and litigation costs (including, without limitation, attorneys' fees) resulting from infringements or alleged infringements of the Patents and this Assignment expressly includes the right to sue for pre-assignment infringements and any injunctive relief, damages, lost profits and litigation costs (including, without limitation, attorneys' fees) in connection with the same;

**AND, Assignor HEREBY** further covenants that Assignor has the full right to convey the interest assigned by this Assignment, Assignor will take all action and execute all documents necessary to perfect the interest assigned hereby, and Assignor has not executed and will not execute any agreement in conflict with this Assignment;

**AND, Assignor HEREBY** further covenants and agrees that Assignor, through its officers and employees, will, without further consideration, communicate with Assignee, its successors and assigns, any facts known to Assignor and its officers and employees respecting the inventions and testify in any legal proceeding, sign all lawful papers when called upon to do so, execute and deliver all papers that may be necessary or desirable to perfect the title to the inventions in said Assignee, its successors and assigns, execute all divisionals, continuations, continuations-in-part, reissues, reexaminations, substitutes, any extensions thereof, make all rightful oaths, and generally do everything possible to aid Assignee, its successors and assigns, to obtain and enforce proper patent protection for the invention in the United States and any foreign country, it being understood that any expense incident to the execution of such papers shall be borne by Assignee, its successors and assigns.

**IN WITNESS WHEREOF**, intending to be legally bound, each party has caused its authorized representative to execute this Assignment.
