We, Mark D. Powell, and Timothy Reinhold, all residing in the state of Florida, have made an invention entitled "PREDICTING TROPICAL CYCLONE DESTRUCTIVE POTENTIAL BY INTEGRATED KINETIC ENERGY ACCORDING TO THE POWELL/REINHOLD SCALE" and have filed a patent application covering said invention for a United States Letters Patent on March 18, 2008, designated as Application No. 12/050,836.

Under applicable law and government regulations, because of the circumstances under which the invention was made, we are required to assign all rights, title and interests throughout the world in the above-identified invention to the United States of America.

We will aid the United States of America in every way to

protect the invention as requested by the Secretary of Commerce, except that any expenses arising by reason of such assistance will be borne, through proper arrangement, by the United States of America.

We warrant that there are no outstanding assignment, grants, liens, encumbrances, or agreements, oral, written, or implied, that will impair the interests conveyed by this Assignment at the time of its execution as indicated below.
