CLAIMING LETTER MEMORANDUM

Inventor: Peter Perzelmaier

Title: MIXING SYSTEM

Re: Patent Application Serial No. 12/269,391 - Filed on November 12, 2008

To: Commissioner for Patents
P.O. Box 1450, Arlington, VA 22313-1450

Dear Sir:

Harman Becker Automotive Systems GmbH, a German Company, having a place of business at Becker-Göring-Straße 16, Karlsbad, Germany 76307, in accordance with the provisions of § 6 of the German Act On Employee Inventions (German Law), has perfected an unlimited claim to the invention of Peter Perzelmaier, as described in U.S. Patent Application Serial No. 12/269,391 (hereafter, the "Invention"). The unlimited claim to the Invention was perfected by the attached written declaration that was sent to Peter Perzelmaier (hereafter, the "Inventor") on September 26, 2007.

Pursuant to German law, Harman Becker Automotive Systems GmbH has claimed without limitation the right, title, and interest in and to the Invention that was previously possessed by the Inventor. In addition, the unlimited claim to the Invention by Harman Becker Automotive Systems GmbH on September 26, 2007, claimed without limitation the right, title, and interest in and to the invention of the Inventor as is described in European patent application Harman Becker Automotive Systems GmbH from which the above-referenced patent application claims priority. Further, the unlimited claim to the Invention by Harman Becker Automotive Systems GmbH as of September 26, 2007, has claimed without limitation the right, title and interest in and to any and all counterpart foreign patent applications filed in the name of Harman Becker Automotive Systems GmbH that claim priority from the above-referenced patent application European Patent Office No. 07 021 940.7, and any and all letters patent or patents in the United States of America and all foreign countries which may be granted therefore and thereon, including the right to claim for any such application, all benefits and priority rights under any applicable convention. The unlimited claim in and to the Invention by Harman Becker Automotive Systems GmbH on September 26, 2007, also claimed without limitation the right, title and interest to any and all divisions and continuations of the above-referenced patent application, or said counterpart foreign patent applications, or reissues or extensions of said letters patent or patents, including the right to claim for any such application, all benefits and priority rights under any applicable convention.

Respectfully submitted,

/James A. Collins/
