This assignment includes said application, all legal equivalents thereof in any country, all improvements and modifications of the above-identified invention or inventions, the above-identified application and all other applications for Letters Patent of the United States, foreign patents, utility models, and design registrations granted for above-identified invention or inventions and all improvements and modifications thereof, all Letters Patent of the United States, foreign patents, utility models, and design registrations which may issue from said applications in the United States and countries foreign thereto, all divisions, continuations, reissues, and extensions of said applications and Letters Patent of the United States, foreign patents, utility models, and design registrations, and the right to claim for any of said applications the full benefits and priority rights under the International Convention for the Protection of Industrial Property, the Patent Cooperation Treaty, the European Patent Convention, and all other treaties of like purposes; such right, title, and interest to be held and enjoyed by ASSIGNEE, its successors and assigns, to the full end of the term or terms for which any and all such Letters Patent of the United States, foreign patents, utility models, and design registrations may be granted as fully and entirely as would have been held and enjoyed by ASSIGNOR had this Assignment not been made.

ASSIGNOR hereby authorizes ASSIGNEE to file patent applications in any or all countries on the above-identified invention or inventions in the name of the undersigned or in the name of ASSIGNEE or otherwise as ASSIGNEE may deem advisable under the International Convention or otherwise.

ASSIGNOR hereby confirms the sale, assignment, and transfer to the ASSIGNEE of the entire right, title and interest throughout the world in said inventions and improvements that may
