PATENT
REEL: 026497 FRAME: 0005

BETWEEN:

- (1) **Biovitrum AB (publ)**, a Swedish corporation registered under number 5560389321 with its registered office at SE-112 76 Stockholm, Sweden (the "**Assignor**"); and
- (2) **Proximagen Neuroscience Plc**, a company registered in England under number 05333020, with its registered office at Hodgkin Building, Guy's Campus, King's College London, London SE1 1UL (the "**Assignee**");

together the '**Parties**'.

1 RECITALS

- 1.1 The Parties entered into a sale and purchase agreement on 29 October 2009 pursuant to which the Assignor agreed to sell and the Assignee agreed to purchase the entire issued share capital of the Company.
- 1.2 By a related intellectual property transfer agreement dated 23 November 2009 the Assignor has agreed to assign all right, title and interest the Assignor has in the patents and patent applications listed in the Schedule to this Assignment ("**Patents**") to the Assignee on the terms set out in this Assignment.

2 ASSIGNMENT

- 2.1 For consideration of £1 (one pound sterling) and other good and valuable consideration, the Assignor hereby sells, assigns and transfers to the Assignee all right, title and interest the Assignor has throughout the world in and to the Patents including:
 - (a) any right it may have to recover and take all such proceedings as may be necessary for the recovery of damages or otherwise in respect of all infringements of any of the Patents, whether committed before or after the date of this Assignment;
 - (b) any entitlement it may have to any patents granted pursuant to any of the applications comprised in the Patents, for the full term of such patents; and
 - (c) any right it may have to apply for, prosecute and obtain patent or similar protection in the world for an invention embodied by any of the applications comprised in the Patents, including any right to claim priority from such applications.
- 2.2 The Assignor hereby authorises the Assignee to apply solely for registration of the transfer of the Patents.
- 2.3 The Assignee hereby confirms acceptance of this Assignment.
- 2.4 Except as expressly set out in this Assignment, all conditions, warranties, contractual terms and (except in the case of fraud or fraudulent concealment) representations, express or implied by statute, common law or otherwise are excluded, to the maximum extent permitted by applicable laws.

3 FURTHER ASSURANCE

The Assignor shall, at the request of the Assignee, use reasonable endeavours for a period of up to one month from the date of this Assignment to cooperate with the Assignee in executing and delivering all forms and formalities as may be reasonably required by the Assignee to record the assignment of the Patents at the relevant patent offices.

4 THIRD PARTY RIGHTS

- 4.1 No person who is not a party to this Assignment shall have any rights under the Contracts (Rights of Third Parties) Act 1999 to enforce any term of this Assignment.

5 COUNTERPARTS

- 5.1 This Deed may be executed in any number of counterparts but shall not be effective until each party has executed at least the counterpart. Each counterpart shall constitute an original of this Deed but all the counterparts together shall constitute but one and the same instrument.

6 GOVERNING LAW AND JURISDICTION

- 6.1 This Assignment and any non-contractual obligations arising from or connected with it shall be governed by English law and this Assignment shall be construed in accordance with English law. In relation to any legal action or proceedings arising out of or in connection with this Assignment (whether arising out of or in connection with contractual or non-contractual obligations) ("**Proceedings**"), each of the parties irrevocably submits to the exclusive jurisdiction of the English courts and waives any objection to Proceedings in such courts on the grounds of venue or on the grounds that Proceedings have been brought in an inappropriate forum. This clause shall not prevent any of the Parties from applying for provisional measures (including interim injunctive relief) in the courts of any other competent jurisdiction.

IN WITNESS WHEREOF this Assignment has been duly executed the day and year first before written.

Signed by
Director, for and on behalf of
Proximagen Neuroscience Plc

Signed by

Signed by
for and on behalf of
Biovitrum AB (publ)

ASSIGNMENT dated 23rd November 2009

BETWEEN:

(1) **Biovitrum AB (publ)**, a Swedish corporation registered under number 5560389321 with its registered office at SE-112 76 Stockholm, Sweden (the "Assignor"); and

(2) **Proximagen Neuroscience Plc**, a company registered in England under number 05333020, with its registered office at Hodgkin Building, Guy's Campus, King's College London, London SE1 1 UL (the "Assignee");

together the 'Parties'.

1 RECITALS

- 1.1 The Parties entered into a sale and purchase agreement on 29 October 2009 pursuant to which the Assignor agreed to sell and the Assignee agreed to purchase the entire issued share capital of the Company.
- 1.2 By a related intellectual property transfer agreement dated 23 November 2009 the Assignor has agreed to assign all right, title and interest the Assignor has in the patents and patent applications listed in the Schedule to this Assignment ("Patents") to the Assignee on the terms set out in this Assignment.

2 ASSIGNMENT

- 2.1 For consideration of £1 (one pound sterling) and other good and valuable consideration, the Assignor hereby sells, assigns and transfers to the Assignee all right, title and interest the Assignor has throughout the world in and to the Patents including:
 - (a) any right it may have to recover and take all such proceedings as may be necessary for the recovery of damages or otherwise in respect of all infringements of any of the Patents, whether committed before or after the date of this Assignment;
 - (b) any entitlement it may have to any patents granted pursuant to any of the applications comprised in the Patents, for the full term of such patents; and
 - (c) any right it may have to apply for, prosecute and obtain patent or similar protection in the world for an invention embodied by any of the applications comprised in the Patents, including any right to claim priority from such applications.
- 2.2 The assignor hereby authorises the Assignee to apply solely for registration of the transfer of the Patents.
- 2.3 The Assignee hereby confirms acceptance of this Assignment.
- 2.4 Except as expressly set out in this Assignment, all conditions, warranties, contractual terms and (except in the case of fraud or fraudulent concealments) representations, express or implied by statute, common law or otherwise are excluded, to the maximum extent permitted by applicable laws.

3 FURTHER ASSURANCE

The Assignor shall, at the request of the Assignee, use reasonable endeavours for a period of up to one month from the date of this Assignment to cooperate with the Assignee in executing and delivering all forms and formalities as may be reasonably required by the Assignee to record the assignment of the Patents at the relevant patent offices.

4 THIRD PARTY RIGHTS

4.1 No person who is not a party to this Assignment shall have any rights under the Contracts (Rights of Third Parties) Act 1999 to enforce any term of this Assignment.

5 COUNTERPARTS

5.1 This Deed may be executed in any number of counterparts but shall not be effective until each party has executed at least the counterpart. Each counterpart shall constitute an original of this Deed but all the counterparts together shall constitute but one and the same instrument.

6 GOVERNING LAW AND JURISDICTION

6.1 This Assignment and any non-contractual obligations arising from or connected with it shall be governed by English law and this Assignment shall be construed in accordance with English law. In relation to any legal action or proceedings arising out of or in connection with this Assignment (whether arising out of or in connection with contractual or non-contractual obligations) ("Proceedings"), each of the parties irrevocably submits to the exclusive jurisdiction of the English courts and waives any objection to Proceedings in such courts on the ground of venue or on the grounds that Proceedings have been brought in an inappropriate forum. This clause shall not prevent any of the Parties from applying for provisional measures (including interim injunctive relief) in the courts of any other competent jurisdiction.

IN WITNESS WHEREOF this Assignment has been duly executed the day and year first
before written.

Signed by)
Director, for and on behalf of)
Proximagen Neuroscience Plc)
