ASSIGNMENT OF PATENTS AND PATENT APPLICATIONS

WHEREAS, OPTIMUS SERVICES, LLC (hereinafter termed "Assignor"), a corporation under the laws of New York State, having a place of business at 79 East Putnam Avenue, Greenwich, Connecticut 06830, is the present assignee of certain new and useful improvements in the applications identified in **APPENDIX A**, and

WHEREAS, OPTIMUS SERVICES AG (hereinafter termed "Assignee"), a corporation under the laws of Switzerland, having a place of business at Hubrainstrasse 18, 8124 Maur (ZH) Switzerland, desires to acquire all rights, titles and interests in and to the above-identified U.S. and foreign applications and patents, and the inventions disclosed therein, and in and to all embodiments of the inventions, heretofore conceived, made or discovered by Dr. John Mangiardi *et al.* (all collectively hereinafter termed "said inventions"), and in and to any and all patents, inventor's certificates and other forms of protection (hereinafter termed "patents") thereon granted in the United States and foreign countries.

NOW, THEREFORE, in consideration of good and valuable consideration, receipt and sufficiency of which is acknowledged by me to have been received in full from said Assignee:

1. Assignor does hereby sell, assign, transfer and convey unto said Assignee, the entire right, title and interest (a) in and to said applications and said inventions, including the right to sue for monetary damages for patent infringement taking place prior to the date of this Assignment; (b) in and to all rights to apply for foreign patents on said inventions pursuant to the International Convention for the Protection of Industrial Property or otherwise; (c) in and to any and all applications filed and any and all patents granted on said inventions in the United States or any foreign country, including each and every application filed and each and every patent granted on any application which is a division, substitution, or continuation of any of said applications; and (d) in and to each and every reissue or extensions of any of said patents.
2. Assignor hereby covenants and agrees to cooperate with said Assignee to enable said Assignee to enjoy to the fullest extent the right title and interest herein conveyed in the United States and foreign countries. Such cooperation by me shall include prompt production of pertinent facts and documents, giving of testimony, execution of petitions, oaths, specifications, declarations or other papers, and other assistance all to the extent deemed necessary or desirable by said Assignee (a) for perfecting in said Assignee the right, title and interest herein conveyed; (b) for prosecuting any of said applications; (c) for filing and prosecuting substitute, divisional, continuing or additional applications covering said invention; (d) for filing and prosecuting applications for reissuance of any said patents; (e) for legal proceedings involving said invention and any applications therefor and any patents granted thereon, including without limitation opposition proceedings, cancellation proceedings, priority contests, public use proceedings, infringement actions including actions on past infringements such as infringements prior to the execution date of this assignment and court actions; provided, however, that the expense incurred by me in providing such cooperation shall be paid for by said Assignee.
3. The terms and covenants of this assignment shall inure to the benefit of said Assignee, its successors, assigns and other legal representatives, and shall be binding upon me, my respective heirs, legal representatives and assigns.
4. Assignor hereby warrants and represents that they have not entered and will not enter into any assignment, contract, or understanding in conflict herewith.

IN WITNESS WHEREOF, Assignor has executed and delivered this instrument to said Assignee.
