### ASSIGNMENT

WHEREAS, Suresh Narine; Shaojun Li; Ali Mahdevvari; Laziz Bouzidi; Stephen A. DiBiase; and Syed Q.A. Rizvi, hereinafter called the "Assignors," have made the invention described in the United States non-provisional patent application entitled, ESTERS FOR USE AS BASE STOCKS AND IN LUBRICANT APPLICATIONS for a full description of which reference is here made to an application for Letters Patent of the United States filed on February 13, 2011, and assigned Application Serial No. 13/026,268;

WHEREAS, Trent University, a university in Canada having a principal address at 1600 West Bank Drive, Peterborough, ON K9J7B8, CANADA, hereinafter the "Assignee", is desirous of acquiring all right, title and interest in and to the invention and the patent application identified above, and in all Patents, in the United States and in any and all foreign countries which may be obtained from said invention;

NOW, THEREFORE, for good, valuable and legally sufficient consideration, the receipt of which by the Assignors from the Assignee is hereby acknowledged, the Assignors have sold, assigned and transferred, and by these presents do sell, assign and transfer to the Assignee, the entire right, title and interest for the United States in and to the invention and the patent application identified above, and any patents that may issue for said invention in the United States; together with the entire right, title and interest in and to said invention and all patent applications and patents therefore in all countries foreign to the United States, including the full right to claim for any such application all benefits and priority rights under any applicable convention; together with the entire right, title and interest in and to all continuations, continuations-in-part, divisions, renewals and extensions of any of the patent applications and patents defined above. If applicable, the terms of the Funded Research Agreement between Elevance Renewable Sciences Inc. and Trent University may, in the future, modify the assignment provisions for the patent application identified above, any patents that may issue for said invention in the United States, and for any continuations, continuations-in-part, divisions, renewals and extensions of any of the patent applications and patents defined above herein.

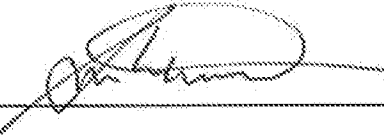

The Assignors hereby covenant and agree, for the Assignors and the Assignees' legal representatives, that the Assignors will assist the Assignee in the prosecution of the patent application identified above; in the making and prosecution of any other patent applications that the Assignee may

elect to make covering the invention identified above, if applicable; in vesting in the Assignee like exclusive title in and to all such other patent applications and patents, if applicable; and in the prosecution of any interference which may arise involving said invention, or any such patent application or patent, if applicable; and that the Assignors will execute and deliver to the Assignee any and all additional papers which may be requested by the Assignee to carry out the terms of this Assignment.

The Commissioner of Patents and Trademarks is hereby authorized and requested to issue patents to the Assignee in accordance with the terms of this Assignment.

I/we hereby sell, assign and transfer unto the Assignee per the terms herein, and have hereby executed this agreement.
