ASSIGNMENT

WHEREAS, I, **William Chrys Scoggins**, have invented certain new and useful methods, compositions, devices, and/or systems for which a United States Patent application entitled "**Cement Retarder and Method of Using the Same**" is filed herewith ("Application"); and

WHEREAS, **BAKER HUGHES INCORPORATED**, a corporation of Delaware, having its principal place of business located at 2929 Allen Parkway, Suite 2100, Houston, Texas 77019, is desirous of acquiring the entire right, title and interest in and to Application and all inventions and improvements set forth therein and to all patent applications directed to such inventions and improvements throughout the world, and all right, title and interest in, to and under any and all patents granted thereon and other forms of legal protection thereto in the United States and throughout the world;

NOW, THEREFORE, for and in consideration of the sum of One Dollar (\$1.00) and for other good and valuable consideration, the receipt of which is hereby acknowledged, I hereby sell, assign, transfer and set over to **BAKER HUGHES INCORPORATED**, all right, title and interest in and to the said invention and improvements throughout the world, and said Application for U.S. Patent, and any and all divisions, continuations, substitutes, renewals, and reissues thereof and all other applications for patent which have been or shall be filed in the United States, and any applications filed outside of the U.S. including those filed under a provision of any convention or treaty which claim priority to Application as well as all patents of the United States and foreign countries which may be granted therefrom (collectively, the "Patents"), the same to be held and enjoyed by **BAKER HUGHES INCORPORATED** for its own use and benefit, and for the use and benefit of its successors, assigns, or other legal representatives, to the end of the term or terms for which said Patents of the United States or foreign countries are or may be granted or reissued, as fully and entirely as the same would have been held and enjoyed by us if this assignment and sale had not been made.

And I hereby authorize and request the Commissioner of Patents and other authorities in foreign countries to issue any and all patents on said invention and improvements, resulting from said Application or a patent application filed outside of the United States on said invention or improvements including those filed under a provision of any convention or treaty as well as any and all divisions, continuations, substitutes, renewals, and reissues to **BAKER HUGHES INCORPORATED**, as assignee of my entire interest, and hereby covenant that I have the full right to convey the entire interest herein assigned, and that I have not executed and will not execute any agreement in conflict herewith.

And I further hereby covenant and agree that I will, at any time, upon request, execute and deliver any and all papers that may be necessary or desirable to perfect the title of said invention and to such patents as may be granted therefor, to **BAKER HUGHES INCORPORATED**, its successors, assigns, or other legal representatives and that if **BAKER HUGHES INCORPORATED**, its successors, assigns or other legal representatives shall desire to file any divisional or continuation application or renewal or substitute application or to secure a reissue, or reexamination of such patents, or to file a disclaimer relating thereto, will upon

request, sign all papers, make all rightful oaths and do all lawful acts requisite for the filing of such application or reissue, and the procuring thereof, and for the filing of such disclaimer, without further compensation but at the expense of said assignee, its successors, or other legal representatives.

And I do further covenant and agree I will, at any time upon request, communicate to **BAKER HUGHES INCORPORATED**, its successors, assigns or other legal representatives, such facts relating to said invention and patents or the file history thereof as may be known to me, and testify as to the same in any interference or other litigation when requested so to do, without further compensation but at the expense of said assignee, its successors, or other legal representatives.
