INVENTION ASSIGNMENT AGREEMENT

This INVENTION ASSIGNMENT AGREEMENT (this "Agreement"), dated as of April 8, 2011, is made and delivered by Unity Envirotech LLC, a Delaware limited liability company ("Assignor"), to Unity Fertilizer LLC, a Delaware limited liability company ("Assignee"), pursuant to, and subject to the terms of, that certain Contribution and Subscription Agreement, dated as of April 8, 2011, by and among Agrifos-Unity LLC, a Delaware limited liability company, Assignor and Assignee.

WHEREAS, Assignor is the owner of all right, title and interest in and to certain inventions (the "Inventions") including without limitation the patents and patent applications identified in the annexed Schedule;

WHEREAS, some of those Inventions were acquired by Assignor as a result of the merger into Assignor of Environmental Technologies Capital Partners, LLC ("ETCP"), a predecessor-in-interest of Assignor which predecessor had in turn acquired them from a debtor in bankruptcy, namely Unified Environmental Services Group, LLC or Unity, Inc., via assignment by the trustee for such debtor (the "Bankruptcy Inventions");

WHEREAS, Assignor seeks to contribute, transfer and assign all right, title and interest in the Inventions to Assignee; and

WHEREAS, Assignee is desirous of acquiring all right, title and interest in and to the Inventions including, among other things, all patents and patent applications identified in the Schedule.

NOW, THEREFORE, in view of good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor does hereby contribute, assign, transfer, convey and deliver unto Assignee, its successors, assigns and legal representatives, the right, title and interest in and throughout the United States of America (including its territories and dependencies) and all countries foreign thereto, in and to said Inventions including, but not limited to: (i) the patents and patent applications identified in the annexed Schedule; (ii) any other United States patent applications of any type including, among others, provisional, divisional, renewal, substitute, continuation, continuation-in-part, reexamination and reissue applications, based in whole or in part on said patent applications or based in whole or in part on any of said Inventions; (iii) any other foreign patent applications filed anywhere in the world, including international and regional applications, based in whole or in part on any of the aforesaid patent applications or based in whole or in part on any of said Inventions; (iv) all letters patent, including extensions thereof, of any country which have been or may be granted on any of the aforesaid applications or on any of said Inventions or any parts thereof; and (v) all other rights of any sort relating to technology comprising any of such Inventions or a part thereof.

AND, Assignor hereby represents that it is the owner of the Inventions, and that Assignor has not previously sold, transferred or assigned any of the Inventions or any part thereof to any other person, party or entity;

AND, Assignor hereby represents that it is not knowledgeable as to or aware directly or indirectly of any claims or defenses that have been, or can or may be, asserted against any of the Inventions for any cause or reason whatsoever other than those claims that were asserted by Assignor and Robert A. Layman concerning the Bankruptcy Inventions, which were settled and extinguished pursuant to the aforementioned bankruptcy and proceedings in respect thereof;

AND, Assignor hereby represents and authorizes that this contribution, transfer and assignment includes all legal rights to enforcement of all rights pertaining to any and all of the Inventions including, among others, the right to file suit against any and all infringers of any of the Inventions including without limitation those as to which the infringement may have occurred prior to the execution of this Agreement, including, but not limited to, any prior infringers that are continuing to infringe any of the rights being assigned hereunder, and that Assignee may keep the entirety of any and all damages, awards or recoveries that it may collect for prior infringement relating to any of the Inventions without any obligation whatsoever to Assignor or to Assignor's heirs, executors or administrators;

AND, Assignor hereby authorizes and request its agents, Drinker Biddle & Reath LLP, One Logan Square, Ste. 2000, Philadelphia, PA 19103, to insert herein any identification necessary or desirable for recordation of this Agreement, including filing dates and patent and/or application numbers when known;

AND, Assignor hereby agrees for itself and its successors and assigns to execute without further consideration any further documents and instruments which may be necessary, lawful and proper in respect of any of said above-referenced patents and applications including without limitation any continuing, substitute, divisional, removal, reexamination or reissue application or in any amendments, extensions or interference proceedings whether for the U.S. or any other region, country or other jurisdiction that may be necessary to secure to Assignee its right, interest and title in and to any and all of said Inventions or any part thereof, including without limitation in and to the several patents and applications referenced herein or conveyed hereby;

AND, Assignor hereby covenants for itself and its successors and assigns, and agrees with Assignee, its successors and assigns, that neither Assignor or its predecessor-in-interest ETCP nor, to Assignor's knowledge, Unified Environmental Services Group, LLC or Unity, Inc. has granted any prior right or license to make, use, sell or offer to sell any of said Inventions to anyone except Assignee, and that prior to the execution of this Agreement, Assignor's right, title and interest in said Inventions has not been otherwise encumbered, and that Assignor has not and will not execute any instrument in conflict herewith;

AND, Assignor does hereby authorize and request the Director of the United States Patent and Trademark Office, and any official of any country, countries, or other jurisdiction(s) foreign to the United States whose duty it is to issue patents, to record this Agreement, and to issue all letters patent for any and all of the Inventions to Assignee, its successors, legal representatives and assigns, in accordance with the terms of this Agreement;

AND, Assignor and Assignee agree that this Agreement may be executed in multiple counterparts (including by means of telecopied or electronically transmitted signature pages), all of which together shall constitute one and the same instrument.
