Whereas Assignor has made invention(s) for which patent application(s) have been or will be filed and are identified on the attached Schedule 1 (the "Patents");

Whereas Assignees desire to acquire the entire right, title and interest in the Assignees' respective territories to the Patents and to the inventions described and claimed therein, and the entire right, title, and interest, as tenants in common, in and to any Patent Cooperation Treaty patent applications in any of the Patents, claiming priority to any of the Patents, or from which any of the Patents claim priority;

Whereas, AB USA desires to acquire the entire right, title and interest in the United States to the Patents and to the inventions described and claimed therein;

Whereas, AB Canada desires to acquire the entire right, title and interest in Canada to the Patents and to the inventions described and claimed therein;

Whereas, AB Int'l desires to acquire the entire right, title and interest in all countries, other than the United States and Canada, to the Patents and to the inventions described and claimed therein;

NOW, THEREFORE, in exchange for good and valuable consideration, the receipt of which is hereby acknowledged,

Assignor hereby assigns to AB USA, its successors and assigns the following:

- (1) The entire right, title and interest in the U.S. to the inventions described or claimed in any of the Patents, to each U.S. patent application and U.S. patent included in the Patents, to each U.S. patent application and U.S. patent from which any of the Patents claim priority to, in whole or in part, and to each U.S. patent application and U.S. patent claiming priority to any of the Patents, in whole or in part;
- (2) The entire right, title and interest to any U.S. patents that may issue with respect to the inventions described or claimed in any of the Patents, and excluding any patents that may issue outside the U.S.;
- (3) The right to apply for patents in the U.S. for all inventions described or claimed in any of the Patents in its own name and to claim any priority rights to which such U.S. patent applications are entitled under international conventions, treaties or otherwise;
- (4) The entire right, title and interest to any renewals, reissues, extensions, substitutions, continuations, continuations-in-part, or divisions in the U.S. of the U.S. patents and U.S. patent applications described in one or more of the preceding three paragraphs, and all U.S. patent applications based thereon; and
- (5) The right to enforce patent rights of such U.S. patents and U.S. patent applications, as described in one or more of the preceding four paragraphs, as fully and entirely as the same would have been held and enjoyed by the Assignor if this assignment had not been made; together with all claims by Assignor for damages by reason of past infringement or for provisional rights and including the right to sue for, and collect the same for its own use and benefit, and for the use and benefit of its successors, assigns, and other legal representatives.

Assignor hereby assigns to AB Canada, its successors and assigns the following:

- (1) The entire right, title and interest in Canada to the inventions described or claimed in any of the Patents, to each Canadian patent application and Canadian patent included in the Patents, to each Canadian patent application and Canadian patent from which any of the Patents claim priority to, in whole or in part, and to each Canadian patent application and Canadian patent claiming priority to any of the Patents, in whole or in part;
- (2) The entire right, title and interest to any Canadian patents that may issue with respect to the inventions described or claimed in any of the Patents, and excluding any patents that may issue outside Canada;

- (3) The right to apply for patents in Canada for all inventions described or claimed in any of the Patents in its own name and to claim any priority rights to which such Canadian patent applications are entitled under international conventions, treaties or otherwise;
- (4) The entire right, title and interest to any renewals, reissues, extensions, substitutions, continuations, continuations-in-part, or divisions in Canada of Canadian patents and Canadian patent applications described in one or more of the preceding three paragraphs, and all Canadian patent applications based thereon; and
- (5) The right to enforce patent rights of such Canadian patents and Canadian patent applications, as described in one or more of the preceding four paragraphs, as fully and entirely as the same would have been held and enjoyed by the Assignor if this assignment had not been made; together with all claims by Assignor for damages by reason of past infringement or for provisional rights and including the right to sue for, and collect the same for its own use and benefit, and for the use and benefit of its successors, assigns, and other legal representatives.

Assignor hereby assigns to AB Int'l, its successors and assigns the following:

- (1) The entire right, title and interest in all countries and regions, other than the U.S. and Canada, to the inventions described or claimed in any of the Patents, to each non-U.S. and non-Canadian patent application and non-U.S. and non-Canadian patent included in the Patents, to each non-U.S. and non-Canadian patent application and non-U.S. and non-Canadian patent from which any of the Patents claim priority to, in whole or in part, and to each non-U.S. and non-Canadian patent application and non-U.S. and non-Canadian patent claiming priority to any of the Patents, in whole or in part;
- (2) The entire right, title and interest to any non-U.S. and non-Canadian patents that may issue with respect to the inventions described or claimed in any of the Patents, and excluding any patents that may issue in Canada or the U.S.;
- (3) The right to apply for patents in all countries and regions, other than the U.S. and Canada, for all inventions described or claimed in any of the Patents in its own name and to claim any priority rights to which such non-U.S. and non-Canadian patent applications are entitled under international conventions, treaties or otherwise;
- (4) The entire right, title and interest to any renewals, reissues, extensions, substitutions, continuations, continuations-in-part, or divisions in all countries and regions, other than the U.S. and Canada, of non-U.S. and non-Canadian patents and non-U.S. and non-Canadian patent applications described in one or more of the preceding three paragraphs, and all non-U.S. and non-Canadian patent applications based thereon; and

- (5) The right to enforce patent rights of such non-U.S. and non-Canadian patents and non-U.S. and non-Canadian patent applications, as described in one or more of the preceding four paragraphs, as fully and entirely as the same would have been held and enjoyed by the Assignor if this assignment had not been made; together with all claims by Assignor for damages by reason of past infringement or for provisional rights and including the right to sue for, and collect the same for its own use and benefit, and for the use and benefit of its successors, assigns, and other legal representatives.

Notwithstanding the foregoing, Assignor hereby assigns to Assignees, as tenants in common, the following:

- (1) The entire right, title and interest to each Patent Cooperation Treaty (PCT) patent application included in the Patents, to each PCT patent application from which any of the Patents claim priority to, in whole or in part, and to each PCT patent application claiming priority to any of the Patents, in whole or in part;
- (2) The right to apply for patents via the Patent Cooperation Treaty (PCT) for all inventions described or claimed in any of the Patents in the name of all the Assignees and to claim any priority rights to which such PCT patent applications are entitled under the PCT, or other international conventions, treaties, or otherwise; and
- (3) The right to file national stage applications of the PCT patent applications described in one or more of the preceding two paragraphs in an Assignee's respective territory in an Assignee's individual name.

Assignor further agrees for himself and for his successors and assigns to execute and deliver without further consideration any further applications, assignments or other documents and to perform such other lawful acts as an Assignee, its successors and assigns may deem necessary to fully secure, maintain and enforce its rights, title or interest as outlined herein.

Assignor hereby authorizes and requests to issue to the respective Assignee any patents that may be granted in accordance with this Assignment.

Assignor hereby authorizes attorneys associated with Fredrikson & Byron, P.A., of 200 South Sixth Street, Suite 4000, Minneapolis, Minnesota, 55402-1425, to insert the application numbers, filing dates, and other identifying information on Schedule 1 when known.

This Agreement may be executed in one or more counterparts, all of which shall be considered one and the same agreement. The signatures from each counterpart may be combined with a copy of the Agreement to constitute the entire Agreement.
