## PATENT ASSIGNMENT

THIS PATENT ASSIGNMENT (this "Assignment") is made by and between Trench Switzerland AG, a corporation organized and existing under the laws of Switzerland and having a place of business at Lehenmattstrasse 353, Basel, Switzerland CH-4052 (the "Assignor"), and Trench France SAS, a corporation organized and existing under the laws of France and having a place of business at 16, rue du Général Cassagnou, BP80070, 68302 Saint Louis Cedex, France ("Assignee").

WHEREAS, Assignor owns the entire right, title, and interest in and to the patent applications identified on SCHEDULE A attached hereto and the inventions disclosed therein (collectively, the "Patent Applications");

WHEREAS, it is the intention of the parties that Assignor assign to Assignee the Assignor's entire right, title, and interest in and to the Patent Applications so that Assignee owns the entire right, title and interest in and to the Patent Applications;

NOW THEREFORE, for good and valuable consideration furnished by Assignee to Assignor, the receipt and sufficiency of which is hereby acknowledged, Assignor and Assignee intend to be legally bound as follows.

1. Assignment. Assignor does hereby assign, transfer and deliver to Assignee, and Assignee hereby receives and accepts from Assignor, the entire right, title and interest of Assignor in and throughout the United States of America, its territories and all foreign countries, in and to the inventions and discoveries as set forth in the Patent Applications, and any and all other applications which may claim priority under United States law or international convention, including, but not limited to, non-provisionals, continuations, continuations-in-part, divisions, reissues, reexaminations, substitutions, or extensions thereof, and in and to any and all patents of the United States and foreign countries which may be issued for said inventions and discoveries, including all rights to sue for past, present and future infringement. Assignor further authorizes Assignee to file patent applications in any or all countries on any or all of said inventions and discoveries in Assignor's name or in the name of Assignee or otherwise as Assignee may deem advisable, under the international convention or otherwise.

2. Registration and Issuance of Patents. Assignor hereby authorizes and requests the Director of the United States Patent and Trademark Office and the empowered officials of all other governments to record Assignee as the sole owner of the Patent Applications and to issue solely to Assignee, in lieu of Assignor, in accordance with this instrument, all future Letters Patent, notices and any other communications and documents bearing on the Patent Applications or on patents based on the Patent Applications.
