CORRECTIVE ASSIGNMENT

WHEREAS, I, Petrus Wilhelmus Adrianus Jacobus Maria Nas, City of 's-Gravenhage (The Hague), Country of The Netherlands (hereinafter "Assignor"), have invented certain new and useful improvements in METHODS, SYSTEMS, AND COMPUTER READABLE MEDIA FOR PROVIDING E.164 NUMBER MAPPING (ENUM) TRANSLATION AT A BEARER INDEPENDENT CALL CONTROL (BICC) AND/OR SESSION INITIATION PROTOCOL (SIP) ROUTER (hereinafter, Invention) for which application for a U.S. Patent was made on March 9, 2011 as Serial No. 13/044,510 (hereinafter, Application).

AND, WHEREAS, Tekelec, a corporation duly organized and existing under the laws of the state of California, having its principal office and place of business at 5200 Paramount Parkway, Morrisville, North Carolina 27560 (hereinafter "Assignee"), is desirous of acquiring an interest therein.

WHEREAS, Assignor acknowledges having previously executed an assignment of the Invention and Application to Tekelec on March 18, 2011 (hereinafter, "Previous Assignment") in which Tekelec was erroneously identified as being a corporation duly organized and existing under the laws of the state of Delaware, Assignor executes this Corrective Assignment to clarify that the Previous Assignment was intended to assign all rights in the Invention and Application to Tekelec, a corporation duly organized and existing under the laws of the state of California.

NOW, THEREFORE, To Whom It May Concern, be it known that for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor has sold and by these presents does hereby sell, assign, transfer and convey unto the Assignee, its successors and assigns, his entire right, title and interest in and to the Invention and Application, and in and to any and all foreign patent applications filed on the Invention, and in and to any and all continuations, continuations-in-part, or divisions thereof, and in and to any and all
Letters Patent of the United States of America and all foreign countries or reissues thereof which may be granted therefor or thereon, for the full end of the term for which said Letters Patent may be granted, together with his right to claim the priority of the Application in all countries in accordance with the Paris Convention, the Patent Cooperation Treaty, or other agreement or national law under which priority can be claimed, the same to be held and enjoyed by said Assignee, its successors and assigns, as fully and entirely as the same would have been held and enjoyed by Assignor if this assignment and sale had not been made.

Assignor hereby requests that said Letters Patent be issued in accordance with this Corrective Assignment.

Assignor further covenants and agrees that, at the time of the execution and delivery of these presents, Assignor possesses the unencumbered right and authority to make this Corrective Assignment.

Assignor further covenants and agrees, and likewise binds his heirs, legal representatives and assigns, to promptly communicate to said Assignee or its representatives any facts known to him relating to the Invention, to testify in any interference or legal proceedings involving the Application or Invention, to execute any additional papers which may be requested to confirm the right of the Assignee, its representatives, successors and assigns to secure patent or similar protection for the Invention in all countries and to vest in the Assignee complete title to the Invention and Letters Patent, without further compensation, but at the expense of said Assignee, its successors, assigns and other legal representatives.

Executed this 20 day of June, 2011.

Petrus Wilhelmus Adrianus Jacobus Maria Nas
